Whereas it is found by Experience, That Our English Subjects and Warlike Nations not in Unity with Us, and who are not holden by any League or Treaty, cannot be carried on without the Establishment of fees and Farwes in places conuent, the maintenance whereof requires so great and constant Expence, that it cannot be otherwise defrayed, then by Managing the whole Trade by a Joint Stock. We in Our Royal Council taking the same into Our serious Consideration, and more especially having found by experience, That the whole Trade of the Coast of Guinea, Basse and Accra, and other parts and places of Africa, so much impounding our Power, and the Enriching of this Our Kingdom, was deep much hazed, and attempted to be Impugned by foreigners, and in imminent danger to be entirely lost, and taken from Us, and Our loving Subjects, not only by foreign force, but by the Violence and Inconstancy of the Heathen Native: For the Recovery and Recarriage whereof, We were Greatly pleased to encourage and induce Our loving Subjects to Raise a Joint Stock to be used and employed therem: And in consideration thereof, and for the better Securing of such as should come in and be concerned in the said Joint Stock and Trade, We do by Our Letters Patents under Our Great Seal of England, bearing date the Seven and Twentieth day of January, in the four and thirtieth year of Our Reign, Grant unto several of Our loving Subjects, the whole entre and to the S. & the N. and from Africa, from the Port of Saly in South Barbary inclusive, to the Cape de Bon Esperance inclusive, with all the Islands near adjoining to those Coasts, and comprehendeth Within the Limits aforesaid, and do Incorporate them by the name of The Royal African Company of England: And the said Company having raised a very great Stock sufficient to Manage the Trade thereof, have since, at their great Expence and Charge, founded and settled divers Factories, fees and Farwes, by which means they have so Secured the said Trade, that the same doth now begin to flourish, and if not disturbed, is likly to be further improved to the great benefit of this Our Kingdom: Whereupon, We are Informed by the humble Petition of the said Company, That divers of Our Subjects in

**The Greatest Works of Mark Twain: 370+ Titles in One Edition (Illustrated)** Mark Twain,2023-11-27 In The Greatest Works of Mark Twain 370 Titles in One Edition Illustrated readers are invited into the expansive and intricate world created by one of America's most revered literary figures. This comprehensive collection showcases Twain's mastery of wit, satire, and storytelling, featuring iconic works such as *The Adventures of Tom Sawyer* and *Adventures of Huckleberry Finn*, and numerous short stories, essays, and speeches. The inclusion of illustrations enhances the text, providing visual context that complements Twain's vivid descriptions and humor. The compilation serves as a significant testament to Twain's role in pioneering American literature, reflecting the social issues of his time through his distinctive voice and style. Mark Twain, born Samuel Langhorne Clemens, was deeply influenced by his Mississippi River upbringing, the complexities of 19th-century American society, and his diverse experiences as a riverboat pilot, prospector, and journalist. These factors permeate his writing, imbuing it with authenticity and poignant insight. Twain's profound understanding of human nature, alongside his sharp critique of social norms, paved the way for the wide array of themes presented in this anthology. This illustrated collection is highly recommended for both long-time fans and those new to Twain's work. It serves not only as an essential resource for scholars but also as an engaging introduction for casual readers seeking to explore the depth of American literature. Delve into Twain's unique blend of humor and social commentary, and discover why his works continue to resonate across generations.

**A Study of Svatantrika** Donald S. Lopez Jr., 2016-09-13 *A Study of Svatantrika* represents an important contribution to our understanding of Mahayana philosophy in India and Tibet. The Mahayana is considered to have two subschools: Svatantrika and Prasangika. The Prasangika school of Candrakirti is better known than Svatantrika in part because the major Svatantrika texts are preserved only in Tibetan translation. The Svatantrikas, however, made important contributions to Buddhist philosophy in their expositions of the nature of reality, the role of reasoning in the process of enlightenment, and in their delineations of the paths to nirvana. The synthesis of Yogacara and Mahayana philosophy by the Svatantrika master Ntarakirti represents the final development of Buddhist thought in India. In Tibet, Svatantrika was the first Indian Buddhist school to gain currency prior to the translation of the works of Candrakirti into Tibetan. In preparing this *Study of Svatantrika*, Donald S. Lopez Jr. consulted the major Indian works of the Svatantrikas, figures central to the development of Buddhist thought in India, such as Bhavaviveka, Jñanagarbha, Ntarakirti, and Kamalaśāla, and analyzed a number of Tibetan expositions of Svatantrika. The result is the most extensive examination of this influential school available in the West.

**Contesting the City** Christian D. Liddy, 2017-08-15 The political narrative of late medieval English towns is often reduced to the story of the gradual intensification of oligarchy in which power was exercised and projected by an ever

smaller ruling group over an increasingly subservient urban population Contesting the City takes its inspiration not from English historiography but from a more dynamic continental scholarship on towns in the southern Low Countries Germany and France Its premise is that scholarly debate about urban oligarchy has obscured contemporary debate about urban citizenship It identifies from the records of English towns a tradition of urban citizenship which did not draw upon the intellectual legacy of classical models of the citizen This was a vernacular citizenship which was not peculiar to England but which was present elsewhere in late medieval Europe It was a citizenship that was defined and created through action There were multiple and divergent ideas about citizenship which encouraged townspeople to make demands to assert rights and to resist authority This volume exploits the rich archival sources of the five major towns in England Bristol Coventry London Norwich and York in order to present a new picture of town government and urban politics over three centuries The power of urban governors was much more precarious than historians have imagined Urban oligarchy could never prevail whether ideologically or in practice when there was never a single fixed meaning of the citizen     **Acts of the Parliament of the Dominion of Canada Relating to Criminal Law, to Procedure in Criminal Cases and to Evidence** Canada,1891
