Thomas, Catherine Barr, 2009 Indexes popular fiction series for K-6 readers with groupings based on thematics consistent setting or consistent characters Annotated entries are arranged alphabetically by series name and include author publisher date grade level genre and a list of individual titles in the series Volume is indexed by author title and subject genre and includes appendixes suggesting books for boys girls and reluctant ESL readers **Be Quiet, Pooh!** Isabel Gaines, Walt Disney Productions, 1999-10-13 Poor Rabbit just cannot get a good night's sleep because Pooh wakes him up every morning singing Rabbit even makes a sign to silence Pooh's musical medleys but that just creates more problems when a chirping bird builds her nest on the sign Rabbit finally realizes that it's just more fun to join in the singing

Bowker's Guide to Characters in Fiction, 2003 **Winnie the Pooh #10: Pooh's Easter Egg Hunt Club** Isabel Gaines, 1999-03-31 Winnie the Pooh has a hole in his basket How will he ever win the Easter egg hunt Young readers can find out with this bright and colorful Step into Reading title Copyright Libri GmbH All rights reserved **The Infinite Gift** Charles Yang, 2006-06-27 A child's very first word is a miraculous sound the opening note in a lifelong symphony Most parents never forget the moment But that first word is soon followed by a second and a third and by the age of three children are typically learning ten new words every day and speaking in complete sentences The process seems effortless and for children it is But how exactly does it happen How do children learn language And why is it so much harder to do later in life Drawing on cutting edge developments in biology neurology psychology and linguistics Charles Yang's *The Infinite Gift* takes us inside the astonishingly complex but largely subconscious process by which children learn to talk and to understand the spoken word Yang illuminates the rich mysteries of language why French newborns already prefer the sound of French to English why baby talk though often unintelligible makes perfect linguistic sense why babies born deaf still babble but with their hands why the grammars of some languages may be evolutionarily stronger than others and why one of the brain's earliest achievements may in fact be its most complex Yang also puts forth an exciting new theory Building on Noam Chomsky's notion of a universal grammar the idea that every human being is born with an intuitive grasp of grammar Yang argues that we learn our native languages in part by unlearning the grammars of all the rest This means that the next time you hear a child make a grammatical mistake it may not be a mistake at all his or her grammar may be perfectly correct in Chinese or Navajo or ancient Greek This is the brain's way of testing its options as it searches for the local and thus correct grammar and then discards all the wrong ones And we humans Yang shows are not the only creatures who learn this way In

fact learning by unlearning may be an ancient evolutionary mechanism that runs throughout the animal kingdom Thus babies learn to talk in much the same way that birds learn to sing Enlivened by Yang s experiences with his own young son The Infinite Gift is as charming as it is challenging as thoughtful as it is thought provoking An absorbing read for parents educators and anyone who has ever wondered about the origins of that uniquely human gift our ability to speak and just as miraculous to understand one another Pooh's Graduation Isabel Gaines,2000 As Christopher Robin prepares a graduation celebration for his friends in the Hundred Acre Wood Winnie the Pooh wonders what his special award might be
