## **The Golden Man A Quest For El Dorado:**

*The Golden Man* Victor Wolfgang Von Hagen, 1974      *The Golden Man* Victor Wolfgang Von Hagen, 1974 El Dorado The golden man Those doughty adventurers who first began to probe the secrets of the New World were fascinated by whispers of treasure beyond belief somewhere in the mountains of Colombia There said the native Indians lived a people rich in gold with a chief who once a year as part of a religious ritual covered himself with the precious metal s dust So began an incredible saga of adventure Spaniards Germans French British Dutch and Portuguese sprawled across an almost unknown continent in their search for a phantom The New World replaced the Old World s mythology of unbounded riches in legendary places in the deserts and cities of the Mediterranean and Asia From a golden man El Dorado grew into a city of gold and drew untold numbers to death It became the metaphor for the unattainable Sir Walter Raleigh England s hero great adventurer and man of letters died on the block because he too caught the fever of El Dorado He and countless others failed to prove its existence was no legend But they discovered a continent Victor von Hagen himself an explorer and traveller of no mean accomplishment has followed their footsteps through jungles and country where disease and other hazards turned death into monotonous tragedy He has no need to dramatise the people and events he has documented his approach to the vast tapestry and his presentation results in the greatest real life adventure stories yet told The myths of the heroics of the questers for the Golden Fleece and the Holy Grail become minor narratives alongside von Hagen s brilliant and exciting account of the actual events and the men who precipitated them dust jacket      *Cannibalism and the Colonial World* Francis Barker, Peter Hulme, Margaret Iversen, 1998-08-06 In *Cannibalism and the Colonial World* published in 1998 an international team of specialists from a variety of disciplines anthropology literature art history discusses the historical and cultural significance of western fascination with the topic of cannibalism Addressing the image as it appears in a series of texts popular culture film literature travel writing and anthropology the essays range from classical times to contemporary critical discourse *Cannibalism and the Colonial World* examines western fascination with the figure of the cannibal and how this has impacted on the representation of the non western world This group of literary and anthropological scholars analyses the way cannibalism continues to exist as a term within colonial discourse and places the discussion of cannibalism in the context of postcolonial and cultural studies      **Amazon Men** Adam Courtenay, 2015-06-24 Captivating An examination of complex and contradictory human responses to the development of the Amazon and to its preservation The Australian *Amazon Men* is about conquistadors and botanists colonizers and human rights activists slave traders and philanthropists that is people who have variously tried to conquer rework map enslave and save this region and its river system each according to the needs and zeitgeist of their time in history The environmental battles of today are part of a long running story that s been going on since Europeans first discovered this impenetrable ocean of green For centuries there s been a war of attrition between the greatest ecosystem and the greatest predator Up until now the predator has failed *Amazon Men* is about those who ve tried

to conquer and exploit the Amazon and those who've tried to understand and savor it. Conquistadors Francisco de Orellana and Lope de Aguirre play their parts as representatives of the Age of Discovery. Charles Marie de La Condamine is a perfect foil for the Age of Enlightenment. Alexander von Humboldt appears as a scientist of the Romantic age seeking unity in the midst of chaos. Walter Hardenburg represents the machine age defying the industrial imperatives of his time to oppose unfettered colonial capitalism. Sydney Possuelo, the greatest living Amazonian explorer, represents the ongoing conflict between modern expansion and environmental causes. What do their experiences tell us about our attitude to the unexplored and unknown? The stories of Amazon Men recount deeds of bravery and acts of brilliance but also forgotten holocausts where guns, germs, and steel have all played their roles. *De foltering van Eldorado* Albert Helman, 1983. For review see J. E. Spruit in *Tijdschrift voor Antilliaans Recht* jrg 5 no 2 1984 p 155-157.

**Interdisciplinary Measures** Graham Huggan, 2008-01-01. Where now for postcolonial studies? That is the central question in this new volume from one of the field's most original thinkers. Not so long ago the driving force behind postcolonial criticism was literary; increasingly, however, many have claimed that the future of postcolonial studies is interdisciplinary. *Interdisciplinary Measures* thoroughly considers this alternative trajectory through the field of postcolonial studies by setting up a series of conversations among these newly postcolonial disciplines: notably geography, environmental studies, history, and anthropology, and literary studies, in which the imaginative possibilities of non-Western epistemologies are brought to the fore.

**El Dorado, Land of Gold** Norma Gaffron, 1990. Discusses the myth of the lost city of gold in northern South America sought by Spanish explorers in the fifteenth century and by some modern treasure hunters.

**Gold** Shannon L. Kenny, 2011-04-12. This encyclopedia provides detailed information about the historical, cultural, social, religious, economic, and scientific significance of gold across the globe and throughout history. Gold has been an intrinsic part of human culture and society throughout the world, both in ancient times and in the modern era. This precious metal has also played a central role in economics and politics throughout history. In fact, the value of gold remains a topic of debate amid the current upheavals of economic conditions and attendant reevaluations of modern financial principles. *Gold: A Cultural Encyclopedia* consists of more than 130 entries that encompass every aspect of gold, ranging from the ancient metallurgical arts to contemporary economies. The connections between these interdisciplinary subjects are explored and analyzed to highlight the many ways humankind's fascination with gold reflects historical, cultural, economic, and geographic developments. While the majority of the works related to gold focus on economic theory, this text goes beyond that to take a more sociocultural approach to the subject.

**Surveying the American Tropics** Maria Cristina Fumagalli, Peter Hulme, Owen Robinson, Lesley Wylie, 2013. A collection of essays from distinguished international scholars that explore the idea of a literary geography of the American Tropics.
