The Gaza Of Winter:

The Gaza of Winter Donald Revell, 1988 **Women and the Politics of Military Confrontation** Nahla Abdo, Ronit Lentin, 2002-06-01 As the crisis in Israel does not show any signs of abating this remarkable collection edited by an Israeli and a Palestinian scholar and with contributions by Palestinian and Israeli women offers a vivid and harrowing picture of the conflict and of its impact on daily life especially as it affects women's experiences that differ significantly from those of men. The autobiographical narratives in this volume focus on some of the most disturbing effects of the Israeli-Palestinian conflict: a sense of dislocation that goes well beyond the geographical meaning of the word; it involves social, cultural, national and gender dislocation including alienation from one's own home, family, community and society. The accounts become even more poignant if seen against the backdrop of the roots of the conflict: the real or imaginary construct of a state to save and shelter particularly European Jews from the horrors of Nazism in parallel to the other side of the coin: Israel as a settler colonial state responsible for the displacement of the Palestinian nation. Africa Pilot Great Britain. Hydrographic Department, 1897

The Art of Attention Donald Revell, 2007-07-24 Using examples from his own poetry Donald Revell takes the writer beyond the workshop and into the world of vision. Partisan Review, 1991 Alexander the Great: A Very Short Introduction Hugh Bowden, 2014-07-24 Alexander the Great became king of Macedon in 336 BC when he was only 20 years old and died at the age of 32 twelve years later. During his reign he conquered the Achaemenid Persian Empire, the largest empire that had ever existed, leading his army from Greece to Pakistan and from the Libyan desert to the steppes of Central Asia. His meteoric career as leader of an alliance of Greek cities, Pharaoh of Egypt and King of Persia had a profound effect on the world he moved through. Even in his lifetime his achievements became legendary and in the centuries that followed his story was told and retold throughout Europe and the East. Greek became the language of power in the Eastern Mediterranean and much of the Near East as powerful Macedonian dynasts carved up Alexander's empire into kingdoms of their own, underlaying the flourishing Hellenistic civilization that emerged after his death. But what do we really know about Alexander? In this Very Short Introduction Hugh Bowden goes behind the usual historical accounts of Alexander's life and career. Instead he focuses on the evidence from Alexander's own time: letters from officials in Afghanistan, Babylonian diaries, records from Egyptian temples to try and understand how Alexander appeared to those who encountered him. In doing so he also demonstrates the profound influence the legends of his life have had on our historical understanding and the controversy they continue to generate worldwide.
