The Genesis Gap Theory:

The Genesis 'gap Theory' Michael W. J. Phelan, 2005-01 The interpretation of Genesis 1:1-2 has taxed the minds of exegetes for many years. The controversy has centred upon whether or not there is a chronological gap of unspecified duration within the compass of what at first glance seems to be continuous narrative. This proposed gap is the basis of what might be termed theories of accommodation. By some the proposed gap is used to accommodate the alleged vast ages of cosmic geological and biological evolution and has certain similarities with the theory that views the days of Genesis 1 not as literal days representing but one complete rotation of the earth upon its axis but as entire epochs during which the earth was subject to profound but extremely slow evolutionary change. This is a view frequently advocated by so-called Theistic Evolutionists who seek to harmonise Scripture with human wisdom in the form of evolutionary dogma. The facts are that 1) the six days of Genesis 1 are each defined as comprising but one evening and morning (verses 5, 8, 13, 19, 23 and 31); 2) Exodus 20:11 and 31:17 state that the basis of the seven-day week which regulates our calendar still is the hexameron or six days of creation followed by the Sabbath rest; 3) death did not exist before Adam and came through Adam (Romans 5:12) ruling out the possibility of millions of years of plant and animal deaths before man; and 4) the concept of the history of the events of Genesis 1 being greater in duration than all the rest of Scripture history taken together and of it outlasting it by a truly prodigious amount which the adoption of an evolutionary time scale would demand is absolutely contrary to the conceptual basis of the Word of God. The desire to accommodate entire epochs such as are suggested by evolutionists within a chronological gap to be located within Genesis 1:1-2 then should not be a serious consideration for sincere students of the Word. But the proposed gap is used also to accommodate the Luciferic Rebellion and Fall. It is taught by believers in this view that the original creation was marred if not ruined altogether by this rebellion or by a Divine Judgement which fell upon the earth as a consequence of it and that the hexameron details the actions of God in restoring the by then ruined earth. Finally, there are those who see such a gap accommodating both evolutionary epochs and the Luciferic Rebellion. What the sincere student of God's Word needs to know is whether or not there is any real basis in the Scriptures themselves for the existence of such a gap or whether the proposal is based only upon human speculation.

The Gap Theory Robert L Watkins, 2025-10-03 The Pre Adamic Age the age of the angels demons cave men and dinosaur REALLY The Genesis Gap theory also referred to as the Reconstruction Theory or Pre Adamic Creation posits a substantial temporal gap between Genesis 1:1 and 1:2 This theory suggests that an ancient creation occurred followed by a subsequent restoration of the earth prior to the creation of humans According to this doctrine the initial verse is interpreted as the original creation of the universe while the subsequent verses describe the preparation of the Earth for something greater This interpretation implies an extensive pre Adamic history and raises questions regarding evolution ancient catastrophes and biblical events such as Noah's flood and the existence of dinosaurs In Genesis 1:1 it is understood within the boundaries of the theory to be a time of the original creation of the universe But verse 2 through to 2:1 is considering the restoration of the earth in preparation for the creation of man and subsequent events The Genesis Gap philosophy is based therefore on a theory that considers the above quote and many other scriptural passages as biblical evidence for an extremely ancient creation and for cataclysmic events that took place on an ancient earth that predate Adam's creation or in their arguments pre adamic history Consequently according to this theory there would be considerable expanses of time between these two verses of scripture Therefore the questions abound did God use evolution to create the world were there two great floods and what happened to the dinosaurs did Noah really take them into the ark does it really matter what a Christian believes just to name a few It follows then that the perfect Genesis for this book should be likewise 1 In the beginning God created the heavens and the earth 2 Now the earth was or became formless and empty darkness was over the surface of the deep and the Spirit of God was hovering over the waters You are invited to join the cowboy chaplain to explore these ideas and more

Biblical Geology Daniel G. McCrillis, Th. Day Narrative Does the Bible really say that the material universe was created in the Six Day Narrative Was Adam immortal before his fall Is there a workable model in Biblical Creation for Modern Geology Did the Geologic Column form in the Noahic Flood Is the YECSM from within or without Mainline Christianity Does our Creation Doctrine affect other doctrines Is Creation a part of God's qualitative attributes or is it just limited to the Six Day Narrative Is it logical or illogical to propagate an Appearance of Age Theory when defending a Young Earth Did the Bible writers teach an Old or Young Earth When was the Creation made subject to vanity Pre or Post Fall Could the early Church have grasped modern day interpretations of Creation Are the leaders of the YECSM qualified to represent Christianity to the world's intellectual communities A Must for Every Person in the Ministry

A Worldview Approach to Science and Scripture Carol Hill, 2019-11-19 Geologist Carol Hill examines how numerous apparent conflicts between Scripture and science can be resolved by understanding the ancient worldview of the scriptural authors and how it differs from our modern scientific worldview This framework opens the door to clearing up longstanding questions such as Are the Genesis patriarchs' ages real numbers Are the days of creation actual 24 hour days Where was the Garden of Eden located Was Noah's flood global or local Were Adam and Eve real people Is evolution a belief or a fact With photographs and diagrams throughout Hill explores the meaning of the relevant biblical passages the scientific data and how the worldview approach addresses seeming contradictions Anyone who has wrestled with these questions will find A Worldview Approach to Science and Scripture to be an invaluable resource for understanding the interplay between faith and the world Carol Hill takes both Scripture and science seriously affirming the inspiration of the Bible and the evidence for biological evolution Deborah Haarsma President of BioLogos This is one of the best one volume works on the creation evolution dialogue in print Kenneth Keathley Southeastern Baptist Theological Seminary Carol Hill's worldview approach brings the reader face to face with archeological biblical and scientific data that enable one to gain a new appreciation for what the Bible is trying to teach This approach is a very helpful tool James K Hoffmeier Trinity Evangelical Divinity School

Unformed and Unfilled Weston W. Fields, 1976 *Creation and the Consequence of Satan's Fall* Pieter Dykstra, 2012-06 The Gap Theory shows evidence of the dinosaurs becoming extinct as the result of Satan's fall and explores the origin of demons as being disembodied spirits of a pre-Adamic race who were judged by God as the result of Satan's sin Why was man commissioned by God in Genesis 1:28 to replenish the earth Why did God use that word Could this be a reference to a pre-Adamic race that was created in Genesis 1:1 and destroyed in Genesis 1:2 due to Satan's fall and which the human was to replace or replenish Read where angels that sinned left their heavenly habitation and came down to earth to procreate with humans and whose children were called Mighty men which were of old men of renown offspring that are the source of all the ancient secular myths that claim the gods came down to earth and married human women

THE GAP IS NOT A THEORY! Jack W. Langford, 2011-12-21 What has been called the Gap Theory was a popular and consistent explanation of the first chapter of Genesis among fundamental evangelical Christians up through the mid

1900s With the rise of Young Earth Creationism the gap theory was simply pushed to the background and ridiculed as a past effort to satisfy the claims of modern evolutionary science In effect the new teachers buried this doctrine with the debris of Noah's flood deposits However we shall see in this study that the YEC effectively left the literal Biblical record of Genesis 1 and leaped into the realm of pseudo science to claim that Noah's flood deposited all the various sedimentary strata of the whole earth In addition they pontifically assert that the whole heavens and earth are only about 6000 years old This study is going to prove that the YEC are the very ones who do not take the Scriptures literally This study will prove conclusively that Moses did not make the blunder of either stating or inferring the earth is only 6000 years old There is an abundance of biblical evidences that the Gap is not a theory but a fact In this study you will find that certain of the prophets and an apostle were inspired of God to look back in time even to the backside of earth's history We shall be surprised to find that the past is as captivating as the future In fact as we better understand the past we shall better comprehend the future The cover picture is from two pages of the Jewish Sarajevo Haggadah as seen in the Sarajevo museum in Spain This work was done in 1400 CE The pictures on each page are to be read in the Hebrew manner from right to left The pictures graphically depict the six day activity of God in preparing the earth of man's habitation Two things are to be noted first these six days are preceded by a scene of the earth in a chaotic condition as described in the second verse of Genesis 1 first frame upper right hand corner second on the first day light was made and nothing else third verse of Genesis 1 second frame Obviously this six hundred year old work was not influenced by modern scientific theories rather it represents a long standing interpretation in Judaism

The Bible Tells Them So Kathleen C. Boone, 1989-01-01 Examines the role of the Bible in forming the authority for fundamentalism uses literary theory to assess sermons and offers a fresh look at the movement **Unformed and Unfilled** Weston W. Fields, 1973 Unformed and Unfilled Weston Fields, 2005-01 Everyone's heard of it Many believe it Is there a gap in time between the first two verses in Genesis Does this alleged gap really represent a vast amount of time Weston Fields classic treatment of this subject is now being published by Master Books and promoted by such important organisations as Answers in Genesis In this book Fields makes a detailed study of the gap theory paying particular attention to the Hebrew of Genesis His conclusion that this theory is not a reasonable compromise with modern evolutionary theory but a dangerous diversion from biblical truth helps readers who struggle with the question of the time taken during the creation week Was it really six days Can Christians find a workable solution to the debate about creation and time An important book Features A presentation of a variety of views espoused by Christians of all denominations A professional scholarly look that can be easily understood by laymen A fascinating study of the original Hebrew text Ken Ham Daily Ken Ham, 2024-12-04 A Powerful Resource to Equip You with Biblical Truths for Everyday Life Ken Ham Daily 365 Musings Inspirations Answers is an essential resource for Christian parents looking to strengthen their family's faith and equip their children to stand firm in today's culture This collection of 365 daily readings by renowned apologist Ken Ham offers a unique

Crouching at the Door J.E. Franklin,2022-12-02 Life is good Your house is swept and put in order Then you hear a noise outside You pull the curtain away peering out the window to see an enticing figure grinning at you You pull the door open admiring its scent in your nose appreciating its voice with your ears You reach out to stroke the silken fabric it wears only to caress the roughened hide of a scabrous beast Gideon Prossiden is a good cop At least he thinks he is But after being assigned a cold case that goes nowhere and being compelled to fight off impending lunacy from an onslaught of absurd hallucinations he begins to question his good cop status Now he s tangled up in a keen desire for the coroner s secretary and with an equally intense guilt for his less than gentlemanly daydreams about her But she holds the resolution to his cold case and he must somehow suppress the lechery in his mind while hiding from his anger about her persistent talk of religion and that God stuff It looks like an angel white robes gleaming with an inner fire How can it feel so monstrous Now the thing at the door snarls hissing and your mind is roiling with immoral thoughts lustful thoughts while sickening scenes of blood and mayhem spatter the carnal circus But there is hope There is one who stands at the door and knocks whose brilliantly white robe is not a guise The crux is how can you tell the difference between them Gideon Prossiden stands on that crux and a pretty blonde warrior stands beside him desperately fighting to help him see the truth Will he fall and take her with him Or will his sleeping soul awaken to journey with her on the path to paradise The battle for their minds started before time began Who or what will prove to be the victor

In The Beginnings Steven E Dill,2020-06 In the Beginnings is a defense of the Biblical Gap Theory of Creation This theory once popular in the late 19th and early 20th centuries has been rejected by many modern day creationists as being without Biblical or scientific support This book takes an in depth look at both science and the Bible Its purpose is to show how the Gap Theory best fits the scientific and Biblical facts More importantly its main purpose is to reach out to unbelievers who think the Bible teaches things contrary to science Scientific truth and Biblical truth do not contradict The basic assumption of the author is that God is smart enough and powerful enough and Sovereign enough to make His works and His Words agree Because God reveals His invisible attributes in His handiwork the author uses both God s Word and God s Works to share the Gospel of Jesus Christ
