The Gentle Art Of Murder The Detective Fiction Of Agatha Christie:

The Gentle Art of Murder Earl F. Bargainnier, 1980 This study of the technique of Agatha Christie's detective fiction sixty seven novels and over one hundred short stories is the first extensive analysis of her accomplishment as a writer Earl F Bargannier demonstrates that Christie thoroughly understood the conventions of her genre and with seemingly inexhaustible ingenuity was able to develop for more than fifty years surprising variations within those conventions

The Detective's

Companion in Crime Fiction Lucy Andrew, Samuel Saunders, 2021-07-24 This book aims to establish the position of the sidekick character in the crime and detective fiction literary genres. It re-evaluates the traditional view that the sidekick character in these genres is often overlooked as having a small generic or singular role either to act as the foil to the detective in order to accentuate their own abilities at solving crimes or else to simply tell the story to the reader. Instead essays in the collection explore the representations and functions of the detective's sidekick across a range of forms and subgenres of crime fiction. By incorporating forms such as children's detective fiction comics and graphic novels and film and television alongside the more traditional fare of novels and short stories this book aims to break down the boundaries that sometimes exist between these forms using the sidekick as a defining thread to link them together into a wider conceptual argument that covers a broad range of crime narratives

BİRKÖK, KinSun Chan, 2023-06-29 This is an open access book. With the progress of social civilization social science and its research are becoming more and more important. Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings. At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science. Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators. Humanities and arts are the process of perceiving, realizing, thinking, manipulating and expressing objective or subjective objects through capturing and excavating, feeling and analyzing, integrating and applying or displaying the stage results in the form obtained through feeling, seeing, hearing, smelling, touching. The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions. And by reacting to today's increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society. By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive, appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade

requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc **Reading the Cozy Mystery** Phyllis M. Betz,2021-03-09 With their intimate settings subdued action and likeable characters cozy mysteries are rarely seen as anything more than light entertainment The cozy a subgenre of crime fiction has been historically misunderstood and often overlooked as the subject of serious study This anthology brings together a groundbreaking collection of essays that examine the cozy mystery from a range of critical viewpoints The authors engage with the standard classification of a cozy the characters who appear in its pages the environment where the crime occurs and how these elements reveal the cozy story s complexity in surprising ways Essays analyze cozy mysteries to argue that Agatha Christie is actually not a cozy writer that Columbo fits the mold of the cozy detective and that the stories portrayals of settings like the quaint English village reveal a more complicated society than meets the eye *Allusion in Detective Fiction* Jem Bloomfield,2024-07-09 This study argues that allusion is a central part of classic British detective fiction It demonstrates the fraught status of Shakespeare and the Bible during the Golden Age of the British detective novel and the cultural currents which novelists navigated whilst alluding to them The first part traces the complex web of allusions to Shakespeare and the Bible which appear in the novels of Agatha Christie and Dorothy L Sayers examining the meanings these allusions produce The second part explores the way in which Sayers own collection of detective novels became a canon on which later novelists exercised those same allusive practices It studies allusions to Sayers novels throughout the twentieth century and into the twenty first from Gladys Mitchell and P D James to Reginald Hill and Sujata Massey This study reveals allusion as a shaping force at the origin of the classic British detective novel and a continuing element in its identity **Economic Investigations in Twentieth-Century Detective Fiction** Yan Zi-Ling,2016-03-09 In his study of Golden Age and hard boiled detective fiction from 1890 to 1950 Yan Zi Ling argues that these two subgenres can be distinguished not only by theme and style but by the way they structure knowledge value and productive labour Using the detective as a reference point and enactor of socially based interests Yan shows that Golden Age texts are distinguished by their conservatism and not only by their conservatism with the detectives actions serving to stabilize institutions with specific ideological aims In contrast the criminal investigations of the hard boiled detective who is poorly aligned with institutions and strong interest groups reveal the fragility of the status quo in the face of escalating cycles of violence Key to Yan s discussion are theories of exchange value and the gift the latter of which he suggests is more akin to detective work than is wage labour Analyzing texts by a wide range of authors that includes Arthur Conan Doyle Agatha Christie Dashiell Hammett Raymond Chandler Dorothy Sayers Raoul Whitfield George Harmon Coxe and Mickey Spillane Yan demonstrates that the detective s truth generating function most often characterized as a process of discovery rather than creation is in fact crucial to the institutional and class based interests that he or she serves **The Murder Game: Play, Puzzles and The Golden Age** John Curran,2025-09-11 From The Murder of Roger Ackroyd to Magpie Murders

and related diversions including cryptic crosswords and Cain's Jawbone The Murder Game examines the games authors played with their readers and the importance of puzzles in Golden Age whodunits Theory and Practice of Classic Detective Fiction Jerome H. Delamater, Ruth Prigozy, 1997-10-28 This collection of essays explores classic detective fiction from a variety of contemporary viewpoints Among the diverse perspectives are those which interrogate how the genre reflects social and cultural attitudes and interpret the role of the detective as arbiter of truth **Masters of Mystery and Detective Fiction** J. Randolph Cox, 1989 For more than a century the mystery and detective story has been among the most popular forms of fiction in bookstores and libraries Some writers Edgar Allan Poe or Dashiell Hammett for example have attracted a considerable body of critical response others have been the focus of less scrutiny This bibliography is intended for the student general reader or mystery buff who needs some basic information about the mystery genre and its representative authors Selective rather than exhaustive it serves as an introduction Entries on the life and work of seventy five writers from Margery Allingham Raymond Chandler and Amanda Cross to P D James John D MacDonald Edgar Allan Poe Ellery Queen and Georges Simenon appear *Agatha Christie* Mary Wagoner, 1986 An analysis of this mystery story writer's works with an accompanying brief biography *In the Beginning* Mary Jean DeMarr, 1995 Others concentrate more on analysis of the subject novel itself indicating more briefly how that book relates to those which follow it Some discuss such questions as what exactly is the first novel in some rather complex series and in several cases more than one initiating book is discussed No attempt has been made to include consideration of a representative sample of the various types of detective series but a variety of authors is covered ranging from such classics as Agatha Christie Rex Stout and Dorothy L Sayers to more recent authors like James McClure Joseph Hansen and Colin Dexter **The Short Story in English** Dean Baldwin, Gregory L. Morris, 1994-06 Designed for students and teachers of the short story at the college and high school levels this bibliography covers American Canadian and British authors and stories most frequently anthologized for classroom study plus a few authors the editors believe have been unjustly neglected Opening chapters cover reference works bibliographies histories of the short story and short story theory including the most important new thinking on the genre Chapters on individual authors arranged alphabetically include standard biographies general critical studies and discussions of individual stories particularly those frequently anthologized and studied in the classroom Throughout the emphasis is on books and journal articles from Studies in Short Fiction and Modern Fiction Studies especially readily available to students and teachers in college or public libraries Annotations are detailed providing not only a synopsis of the content but also the author's approach Biographical formalist structuralist psychological etc Highly technical or very difficult studies are generally not included The result is a comprehensive and easy to use guide to the scholarship and criticism on a wide range of important British and American short story writers ranging in time from Robert Lewis Stevenson and Edgar Allan Poe to Raymond Carter and Alice Munro
