*The Gift* Lewis Hyde,1983 Discusses the argument that a work of art is essentially a gift and not a commodity      *The Gift* Lewis Hyde,1983      **The Gift** Lewis Hyde,Bonnie P. O'Connell,1991      *The Gift* Lewis Hyde,2009-07-01 A manifesto of sorts for anyone who makes art and cares for it Zadie Smith The best book I know of for talented but unacknowledged creators A masterpiece Margaret Atwood No one who is invested in any kind of art can read *The Gift* and remain unchanged David Foster Wallace By now a modern classic *The Gift* is a brilliantly orchestrated defense of the value of creativity and of its importance in a culture increasingly governed by money and overrun with commodities This book is even more necessary today than when it first appeared An illuminating and transformative book and completely original in its view of the world The Gift is cherished by artists writers musicians and thinkers It is in itself a gift to all who discover the classic wisdom found in its pages      *Gypsy Scholars, Migrant Teachers and the Global Academic Proletariat* Rudolphus Teeuwen,Steffen Hantke,2007 Once adjunct teaching was considered a temporary solution to faculty shortages in institutions of higher education Now it a permanent and indispensable feature of such institutions not just in the U S but worldwide This book takes stock of this new development concentrating primarily on the situation in the humanities It looks at its impact on the lives of the highly educated scholars and teachers from many parts of the world scholars waking up to the sobering fact that higher education presents them with a two tiered labour market in which they themselves are permanently barred from moving up to the higher tier To them being an adjunct teacher means experiencing frustration and humiliation All essays in this book offer personal accounts of adjuncts experiences together with critical reflections on institutional conditions and suggestions for their improvement In turn defiant poignant analytical exasperated and sardonic these essays are always incisive and revealing Their inside view a view from below shows higher education as a world different from how it appears to tenured professors and university administrators different from that presented in most college brochures For all those who care about the current state and the future of higher education no matter if they are teachers scholars students parents or administrators this book will offer valuable insights into the working world of academic teaching **BOOK JACKET**      *Time and Commodity Culture* John Frow,1997 *Time and Commodity Culture* is a set of four linked essays on the cultural systems of postmodernity Rather than taking modernity and postmodernity as real historical epochs however it understands them as strategies for organizing time and social order by means of a nostalgic division within them Each essay explores a particular dimension of this organization of time especially in relation to the anxieties and the possibilities created by the commodification of culture The central essay *Gift and Commodity* studies two areas in which the speed of commodification has increased markedly in recent years That of the person and that of information Using a mix of anthropological legal economic and historical materials it investigates the privatization of the commons in information by way of such things as the development of markets in human DNA the trade in human organs and the creation of property rights in personality What

Was Postmodernism analyses the structured anxiety about the commodification of culture that is called postmodern theory A further essay explores tourism as a figure of modernity and a final essay on memory explores the phenomena of recovered memory and of Holocaust remembrance as ways of constructing temporally ordered forms of the real     **The Gift** Lewis Hyde,2012 Addresses the questions we face every day in our public and private lives This title argues for the importance of creativity in our increasingly money driven society     *The Gift* W.Lewis Hyde,2019-09-24 If you want to write paint sing compose act or make films read The Gift from the Introduction by Margaret Atwood A modern classic cherished by many of the greatest artists of our time and a brilliant life changing defense of the value of creative labor Drawing on examples from folklore and literature history and tribal customs economics and modern copyright law Lewis Hyde demonstrates how our society governed by the marketplace is poorly equipped to determine the worth of artists work He shows us that another way is possible the alternative economy of the gift which allows creations and ideas to circulate freely rather than hoarding them as commodities Illuminating and transformative The Gift is a triumph of originality and insight an essential book for anyone who has ever given or received a work of art     *Virginia Woolf in Context* Bryony Randall,Jane Goldman,2012-12-17 As a paradigmatic modernist author Virginia Woolf is celebrated for the ways her fiction illuminates modern and contemporary life Woolf scholars have long debated how context whether historical cultural or theoretical is to be understood in relation to her work and how her work produces new insights into context Drawing on an international field of leading and emergent specialists this collection provides an authoritative resource for contemporary Woolf scholarship that explores the distinct and overlapping dimensions of her writings Rather than survey existing scholarship these essays extend Woolf studies in new directions by examining how the author is contextualised today The collection also highlights connections between Woolf and key cultural political and historical issues of the twentieth century such as avant gardism in music and art developments in journalism and the publishing industry political struggles over race gender and class and the bearings of colonialism empire and war     **The Question of the Gift** Mark Osteen,2013-09-13 The Question of the Gift is the first collection of new interdisciplinary essays on the gift Bringing together scholars from a variety of fields including anthropology literary criticism economics philosophy and classics it provides new paradigms and poses new questions concerning the theory and practice of gift exchange In addressing these questions contributors not only challenge the conventions of their fields but also combine ideas and methods from both the social sciences and humanities to forge innovative ways of confronting this universal phenomenon     **Prehistoric Philosophy** Justin Pack,2025-12-11 A challenge of the civilizational myths of the agricultural axial and modern revolutions that rethinks the narrative the discipline of philosophy has created about itself
