The Goddess Of Sumer:

Inanna, Lady of Heaven and Earth Henriette Broekema, 2015 Inanna was the great goddess of the Sumerians a people who lived 5000 year ago in the place we know today as Iraq where was created the first urban civilization in human history Inanna the goddess of sexual love and connected with the planet Venus was responsible for the fertility of the land and the later goddesses the Greek Aphrodite and the Roman Venus adopted many aspects of Inanna The kings worshipped Inanna and celebrated with her the Sacred Marriage rite but they also needed her help during the many wars they were waging which gave Inanna the aspects of a warrior goddess As love goddess Inanna had a passionate love life and her great love was the shepherd Dumuzi not a god but a mortal human who wandered about the steppe with his cattle The peasants sang love songs about Inanna and Dumuzi during the many feasts of the successive agricultural seasons believing that their love affair stimulated the fertility of the crops and the fecundity of the livestock But their idyll was not to last for long as Dumuzi was gruesomely murdered The answer to the question of who killed Dumuzi and why is hidden deep in the history of the ancient agrarian communities The Sumerians wrote their texts on clay tablets that once dried could be preserved until our own day and thanks to this miraculous piece of luck we can cognizance of a number of magnificent hymns and myths written about Inanna These archaic texts call up human emotions that find an answering response in the hearts of people today and are still capable of moving us deeply In this book the myths are told against the back ground of Sumerian civilization and various aspects of society from this time are also discussed such as convent life divine kingship and funeral rites One aspect of the funeral rites was The Great Wailing a rite in which Inanna had an important role and which appears to have been performed in many countries around the Mediterranean in the Bronze Age and has left traces even in the Old and New Testament Henriette Broekema s book makes the complex character and history of goddess Inanna accessible to the ordinary reader and based on the texts from that time in twenty six richly illustrated chapters she succeeds in bringing the astonishing world of the goddess Inanna to life Bron Flaptekst uitgeversinformatie **Mesopotamian Gods & Goddesses** Britannica

Guidebook William A. Hinson, 2017-10-27 The Sumerian King List allegedly recorded all the rulers of Earth over 400 000 years who were said to be gods demigods or immortals or one soul playing all the roles In Sumerian Mythology the Anunnaki were a pantheon of good and evil gods and goddesses duality who came to Earth to create the human race According to some resources these gods came from Nibiru Planet of the Crossing The Assyrians and Babylonians called the planet Marduk after their chief god The Sumerians believed one year on the planet Nibiru called a sar was equivalent in time to 3 600 Earth years The Anunnaki therefore had lifespans that were 120 sars which is 120 x 3 600 or 432 000 years According to the Sumerian

King List 120 sars had passed from the time the Anunnaki arrived on Earth to the time of the Great Flood According to Ancient Alien Theory the Anunnaki and other alien groups came to Earth and seeded the human race in many variations This research was lead by Zecharah Sitchin and Erich von D niken among others you can see much of their research on the History Channel Series Ancient Aliens which is also found on YouTube This physical evidence of ancient astronauts can be found throughout our planet leading one to conclude that different races visited here at different periods in Earth s history or the same aliens return and set up various civilizations in which they could inhabit and experience In the first large civilization on earth ancient Mesopotamia we must first look at the Sumerian and Akkadian mythologies The Sumerians were the first civilization on our planet to put their stories down in writing and the first to establish the names and histories of their many gods The Sumerian gods include the following examples Enki the god of water and wisdom Ninhursag the earth mother Dumuzi the shepherd Inanna the goddess of love and war Ereshkigal the goddess of the underworld and the list goes on The Akkadian civilization which replaced the Sumerian civilization changed the name of the original gods The Babylonians replaced the Akkadian civilization and changed the stories around The Babylonians believed in a male dominated society they were the first to introduce the concepts of good and evil The snake became a symbol of evil women became chaos and daemons the intermediaries became the modern demons Some of the Babylonian gods included Ishtar the goddess of love and war Ea the god of wisdom Nintu Mami Belet Ili the mother of gods Tammuz the shepherd Irkalla the goddess of the underworld Do you see some similarities The Egyptian gods and goddesses Osiris the god of the dead ruler of the underworld Sekhmet god of war and Hathor goddess of love In the Greek myths the gods and goddesses are similar with the others Ares the god of war Aphrodite the goddess of love Athena the goddess of wisdom Hades the god of the underworld If you read these mythologies in chronological order from Sumerian gods to Akkadian gods to Babylonian gods to Egyptian gods to Greek gods and to Roman gods you will find that the names and point of view changes but their attributes are virtually identical However the Sumerians were more nature based they did not have the concepts of good and evil By the time we get to the Babylonians their stories are more masculine in nature You will find words in their stories that you will not find in the Sumerian stories The Babylonians introduced the concept of good and evil their women had to ask permission they had no voice These stories suggest that their society would control nature This is the same concept in Greek and Egyptian mythologies they were also more society based rather than Nature based It is the author s conclusion that these early Sumerian gods the Anunnaki were the same gods of later civilizations
