A Companion to Second-Century Christian 'Heretics' Antti Marjanen,Petri Luomanen,2005-07-01 The book illuminates the other side of early Christianity by examining thinkers and movements that were embraced by many second century religious seekers as legitimate forms of Christianity but which are now largely forgotten or are known only from the characteristics attributed to them in the writings of their main adversaries The collection deals with the following teachers and movements Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites Where appropriate the authors have included an overview of the life and significant publications of the heretics along with a description of their theologies and movements Therefore this volume can serve as a handbook of the second century heretics and their heresies Since all the chapters have been written by specialists who wrestle daily with their research themes the contributions also offer new perspectives and insights stimulating further discussion on this fascinating but often neglected side of early Christianity
