**Genocide Reader** Gary E. McCuen, 2000      *Hidden Genocides* Alexander Laban Hinton, Thomas La Pointe, Douglas Irvin-Erickson, 2013-12-18 Why are some genocides prominently remembered while others are ignored hidden or denied Consider the Turkish campaign denying the Armenian genocide followed by the Armenian movement to recognize the violence Similar movements are building to acknowledge other genocides that have long remained out of sight in the media such as those against the Circassians Greeks Assyrians the indigenous peoples in the Americas and Australia and the violence that was the precursor to and the aftermath of the Holocaust The contributors to this collection look at these cases and others from a variety of perspectives These essays cover the extent to which our biases our ways of knowing our patterns of definition our assumptions about truth and our processes of remembering and forgetting as well as the characteristics of generational transmission the structures of power and state ideology and diaspora have played a role in hiding some events and not others Noteworthy among the collection's coverage is whether the trade in African slaves was a form of genocide and a discussion not only of Hutu brutalizing Tutsi victims in Rwanda but of the execution of moderate Hutus as well *Hidden Genocides* is a significant contribution in terms of both descriptive narratives and interpretations to the emerging subfield of critical genocide studies Contributors Daniel Feierstein Donna Lee Frieze Krista Hegburg Alexander Laban Hinton Adam Jones A Dirk Moses Chris M. Hagan,2010-03-15 Called a fig leaf for inaction by many at its inception the International Criminal Tribunal for the Former Yugoslavia has surprised its critics by growing from an unfunded U N Security Council resolution to an institution with more than 1 000 employees and a 100 million annual budget With Slobodan Milosevic now on trial and more than forty fellow indictees currently detained the success of the Hague tribunal has forced many to reconsider the prospects of international justice John Hagan s Justice in the Balkans is a powerful firsthand look at the inner workings of the tribunal as it has moved from an experimental organization initially viewed as irrelevant to the first truly effective international court since Nuremberg Creating an institution that transcends national borders is a challenge fraught with political and organizational difficulties yet as Hagan describes here the Hague tribunal has increasingly met these difficulties head on and overcome them The chief reason for its success he argues is the people who have shaped it particularly its charismatic chief prosecutor Louise Arbour With drama and immediacy Justice in the Balkans re creates how Arbour worked with others to turn the tribunal s fortunes around reversing its initial failure to arrest and convict significant figures and advancing the tribunal s agenda to the point at which Arbour and her colleagues including her successor Carla Del Ponte nicknamed the Bulldog were able to indict Milosevic himself Leading readers through the investigations and criminal proceedings of the tribunal Hagan offers the most original account of the foundation and maturity of the institution Justice in the Balkans brilliantly shows how an international social movement for human rights in the Balkans was transformed into a pathbreaking legal institution and a new transnational legal field The Hague tribunal becomes in Hagan s work a stellar example of how individuals working with collective purpose can make a profound difference The Hague tribunal reaches into only one house of horrors among many but within the wisely precise remit given to it it has beamed the light of justice into the darkness of man s inhumanity to woman as well as to man The Times London
