System Documentation The In Line Approach:

System Documentation David F. Chinell, 1990-01-22 A step by step guide to creating good system documentation well illustrated with figures and examples Demonstrates ways to create and install a documentation system integrate the documentation system with the software development process create a technical database and create a manual from that database Shows how to migrate from an add on to in line approach and also how to bring existing systems up to standard Excellent for software developers as well as electronic processing EDP shops it shows how to prepare system documentation without major expenditures Includes a wealth of time saving tips and tricks with advice on how to avoid common pitfalls
