Hugo Dixon Marple

The Beginning Conductor:

A History of Orchestral Conducting Elliott W. Galkin, 1988 Although the bibliography of literature about personalities in the conducting world is extensive a comprehensive scholarly study of the history of conducting has been sorely lacking Georg Sch nemann s respected study published in 1913 was brief and restricted to the procedures of time beating No work has attempted to examine the role of the orchestral conductor and to document the evolution of his art from historical technical and aesthetic perspectives Dr Elliott W Galkin musicologist conductor and critic twice winner of the Deems Taylor award for distinguished writing about music has produced such a work in A History of Orchestral Conducting The central historical section of the book which examines chronologically the theories and functions of time beating and interpretative concepts of performance is preceded by discussions of rhythm development of the orchestral medium and the evolving characteristics of orchestration Conductors of unusual pivotal influence are examined in depth as is the increasingly complex psychology of the podium Critical writings since the time of Monteverdi and the birth of the orchestra are surveyed and compared Analyses of conducting as an art and craft by musicians from Berlioz to Bernstein and commentators from Mattheson Bernard Shaw and Thomas Mann to Jacques Barzun are described and discussed A fascinating collection of engravings wood cuts photographs and caricatures contributes to the richness of this work

Michael Costa: England's First Conductor John Goulden, 2016-04-22 Among the major changes that swept through the music industry during the mid nineteenth century one that has received little attention is how musical performances were managed and directed Yet this was arguably the most radical change of all from a loose control shared between the violin leader musical director and maestro al cembalo to a system of tight and unified control under a professional conductor manager This process brought with it not only baton conducting in its modern form but also higher standards of training and discipline a new orchestral lay out and a more focused rehearsal regime The resulting rise in standards of performance was arguably the greatest achievement of English music in the otherwise rather barren mid Victorian period The key figure in this process was Michael Costa who built for himself unprecedented contractual powers and used his awesome personal authority to impose reform on the three main institutions of mid Victorian music the opera houses the Philharmonic and the Sacred Harmonic Society He was a central figure in the battles between the two rival opera houses between the Philharmonic and the New Philharmonic and between the venerable Ancient Concerts and the mass festival events of the Sacred Harmonic Society Costa s uniquely powerful position in the operatic symphonic and choral world and the rapidity with which he was forgotten after his death provide a fascinating insight into the politics and changing aesthetics of the Victorian musical world

The Beginning Conductor Hugo Dixon Marple, 1972 This book aims to assist the serious student of music who realizes that much of their professional career will consist of conducting amateurs whether in public schools or church choirs city choirs city bands or community orchestras Illustrative pieces of music are drawn from repertoires nonprofessional groups are likely to perform

Unlike many conducting texts this one helps the young conductor in learning to read and study a score in preparation for their conducting studies
