The Being Of Man And His Future Evolution:

The Being of Man and His Future Evolution Rudolf Steiner, 1981 Throughout our life we have to struggle with questions that cannot be answered on the basis of our experience or with our ordinary thinking Spiritual science can help us penetrate to a realm where new possibilities open up to address these questions These lectures offer fascinating insights into the spiritual nature of everyday matters such as forgetting laughing and weeping different types of illnesses and rhythms in the bodies of the human being Steiner shows how we can become through our own efforts co creators in evolution Man's Fate and God's Choice Bhimeswara Challa, 2021-06-29 Stagnate as a creepy caterpillar or transform into a beautiful butterfly this path breaking book of a rare genre suggests is the seminal choice before mankind and every one of us In this setting the book raises some fundamental questions What is man's rightful place in the cosmos and his manifest destiny on earth Why are we so self righteously self destructive Are we a doomed species Or divine beings struggling to overcome the hubris of the human intellect Is God getting weary of mankind How should we synergize human effort and Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart To meet that challenge we need minimum numbers a critical mass to create self sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author's understanding of the human predicament This is a closely argued and thought provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa's reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013 **The Cycle of the Year**

as a Path of Initiation Sergei O. Prokofieff, 2014-03-12 In ancient times humanity possessed an innate knowledge of the spiritual foundations of existence Such knowledge could be acquired through inwardly accompanying the cycle of the year and its connected great seasonal festivals But this instinctive knowledge had to be lost in order for human beings to discover individual freedom In our time as Sergei O Prokofieff demonstrates in this comprehensive work this knowledge must be found anew through the free light filled consciousness of the fully developed human personality Tracing the spiritual path of the yearly cycle Prokofieff penetrates to the deeper esoteric realities of the seven Christian festivals of Michaelmas Christmas Epiphany Easter Ascension Whitsun and St John s Tide Basing his research on the work of the twentieth century initiate Rudolf Steiner he reveals how these festivals are spiritual facts that exist independently of religious traditions and cultural customs Working with the festivals in an esoteric sense can provide a true path of initiation ultimately enabling an experience of the Being of the Earth Christ The journey of study through this book can thus lead the reader to an experience of the modern Christian Rosicrucian path along which it is possible to take the first steps towards life in partnership with the course of cosmic existence

World-Evolution Rudolf Steiner, 1966-01-15 The lecture presented here were given by Rudolf Steiner at a series of public meetings in Christiana Norway in May 1923 He had gone there at the invitation of Scandinavian friends to take part in the founding of the Anthroposophical Society in Norway Upon their request for a series of public lectures he chose to talk about the fundamental anthroposophical problems connected with the being of man the formation of his destiny and the relationship of the complete man to world evolution Dr Steiner who was then late in life responded to the warm interest of his audience with the vigor of a young man As the scandinavian sky and earth appear to blend into each other so his inspiring worlds seemed to link his listeners with the eternal truths of man s origins his present needs and future aims In the very first of these lectures Dr Steiner typically relates man s being to the vast spaces of the cosmos in a discussion of the period between falling asleep and awaking and the path pursued by man between death and a new birth From this beginning he traces human destiny working in the individual to the continuing course of mankind s whole evolution Finally the destiny of man is contemplated in the light of the Mystery of Golgotha and the influence of this event on man s development on earth is revealed The cycle closes with the thought that for man to reach God anew he must in full consciousness of his connections with the Mystery of Golgotha bring himself to be able to say with St Paul Not I but the Christ in me *The Rotarian*
