Maurizio Tira, Michela Tiboni, Michele Pezzagno, Giulio Maternini, 2024-09-17 This volume is the second of a two volume set of the Proceedings of the XXVI International Conference on Living and Walking in Cities held September 6-8 2023 at the University of Brescia Italy. The LWC International Conference was first organized in 1994 at the Department of Civil and Environmental Engineering of the University of Brescia IT. This year the LWC Conference has arrived at its XXVI edition. The Conference traditionally deals with the topics of urban mobility and quality of life in urban areas with a specific focus on vulnerable road users. The LWC Conference allows researchers, experts, administrators, and practitioners to gather and discuss policy issues, best practices, and research findings from different perspectives. The main theme of the 2023 conference was new challenges for sustainable urban mobility and the papers herein address the issue from a multidisciplinary perspective and cover a wide variety of related topics. These books are divided into four topical sections: o Transport Systems and Pedestrian Mobility o Urban Regeneration through Active Mobility o Public Transport New Technologies and Economic Sustainability o Safe Mobility in Cities.

Secret Journey to Planet Serpo Len Kasten, 2013-05-05 Documents how 12 people as part of a top secret U.S. government program traveled to the planet Serpo and lived there for 13 years. Based on the debriefing of the Serpo team and the diary of the expedition's commander, Explains how the aliens helped us reverse engineer their antigravity spacecraft and develop technology to solve our planet wide energy problems. Reveals how our government has an ongoing relationship with the Serpo aliens. On July 16 1965 a massive alien spacecraft from the Zeta Reticuli star system landed at the Nevada test site north of Las Vegas. Following a plan set in motion by President Kennedy in 1962 the alien visitors known as the Ebens welcomed 12 astronaut-trained military personnel aboard their craft for the 10 month journey to their home planet Serpo 39 light years away. In November 2005 former and current members of the Defense Intelligence Agency directed by Kennedy to organize the Serpo exchange program came forward to reveal the operation including details from the 3 000 page debriefing of the 7 members of the Serpo team who returned after 13 years on the planet. Working with the DIA originators of the Serpo project and the diary kept by the expedition's commanding officer Len Kasten chronicles the complete journey of these cosmic pioneers including their remarkable stories of life on an alien planet, superluminal space travel and advanced knowledge of alien technologies. He reveals how the Ebens presented the U.S. with The Yellow Book a complete history of the universe recorded holographically allowing the reader to view actual scenes from pre history to the present. He explains how the Ebens helped us reverse engineer their antigravity spacecraft and develop technology to solve our planet wide energy problems. knowledge still classified. Exposing the truth of human alien interaction and interplanetary travel Kasten reveals not only that the Ebens have returned to Earth eight times but also that our government continues to have an ongoing relationship with them a relationship with the potential to advance the human race into the future.

Regime Shifts in Lake Ecosystems Stephen R. Carpenter,Otto Kinne,2003 The ever changing nature of ecosystems is richly illustrated by long term ecological research In many cases long term change is interpreted as a shift from one dynamic regime to another oligotrophic to eutrophic grassland to woodland before versus after the top predator was lost This book is about such ecological regime shifts
