### **The Analysis of Political Structure**

David Easton,2024-11-01 First Published in 1990 The Analysis of Political Structure is a major work of theory by one of our leading political scientists David Easton here comes to grips with the nature of political structure the way in which a political system is organized for making decisions or its regime Current methodologies within political science have failed to anticipate regime changes We know little about the conditions for the emergence maintenance or decline of democratic or authoritarian types of regime structures For example the changes in Eastern Europe have come as a complete surprise This liability to predict is Easton argues in part due to the limitations of the decompositional research typical of political science Easton applies a method informed by theories of structuralism to the largely untouched field of political analysis He takes a holistic systems analysis approach in place of predominant decompositional methods and argues that the organizational structure of political systems decides the forms regimes take To support his case Easton notably engages the work of Nicos Poulantzas a leading structural Althusserian Marxist He shows how Poulantzas work supports the new statist movement which fails to account for the variety of forms of regimes This is a must read for students and scholars of political science
