The Politicized Economy:

The Politicized Economy Michael H. Best, William E. Connolly, 1976 **Political Control of the Economy** Edward R. Tufte, 1978 Speculations about the effects of politics on economic life have a long and vital tradition but few efforts have been made to determine the precise relationship between them. Edward Tufte a political scientist who covered the 1976 Presidential election for *Newsweek* seeks to do just that. His sharp analyses and astute observations lead to an eye opening view of the impact of political life on the national economy of America and other capitalist democracies. The analysis demonstrates how politicians political parties and voters decide who gets what when and how in the economic arena. A nation's politics it is argued shape the most important aspects of economic life inflation unemployment income redistribution the growth of government and the extent of central economic control. Both statistical data and case studies based on interviews and Presidential documents are brought to bear on four topics. They are 1 the political manipulation of the economy in election years 2 the new international electoral economic cycle 3 the decisive role of political leaders and parties in shaping macroeconomic outcomes and 4 the response of the electorate to changing economic conditions. Finally the book clarifies a central question in political economy How can national economic policy be conducted in both a democratic and a competent fashion

The Journal of Political Economy, 1900 Deals with research and scholarship in economic theory. Presents analytical interpretive and empirical studies in the areas of monetary theory fiscal policy labor economics planning and development micro and macroeconomic theory international trade and finance and industrial organization. Also covers interdisciplinary fields such as history of economic thought and social economics

The Political Economy Thomas Ferguson, Joel Rogers, 1984 This study based on Chinese publications and archival materials as well as on recent fieldwork provides an up to date treatment of Kazak history and culture emphasizing the Kazaks in 20th century China and in particular their status today as one of China's minority nationalities

Markets and Majorities Steven M. Sheffrin, 1993 When markets work finding the right economic policy is easy. Government must merely ensure their smooth functioning. But as Steven M. Sheffrin shows trouble starts when markets fail to work. Economic failure is too often compounded by political failure in the guise of clumsy partisan regulations. Applying his analysis to seven critical problems health care Social Security and Medicare the environment the liability crisis international trade monetary and international financial policy and the deficit Sheffrin pinpoints the market failures at the root of these problems and the heavy handed regulatory regimes that have exacerbated them and shows how innovative solutions sensitive to both market and political failures can solve them

The Political Economy of Communication Vincent Mosco, 2009-04-23 A masterpiece the one single indispensable book that all media students and scholars need to read to understand this vital and growing area of research.
