## **The Fifth Child:**

The Fifth Child Doris Lessing, 2010-11-17 Doris Lessing's contemporary gothic horror story centered on the birth of a baby who seems less than human probes society's unwillingness to recognize its own brutality. Harriet and David Lovatt, parents of four children, have created an idyll of domestic bliss in defiance of the social trends of late 1960s England. While around them crime and unrest surge, the Lovatts are certain that their old-fashioned contentment can protect them from the world outside until the birth of their fifth baby. Gruesomely goblin-like in appearance, insatiably hungry, abnormally strong, and violent, Ben has nothing innocent or infant-like about him. As he grows older and more terrifying, Harriet finds she cannot love him. David cannot bring himself to touch him, and their four older children are afraid of him. Understanding that he will never be accepted anywhere, Harriet and David are torn between their instincts as parents and their shocked reaction to this fierce and unlovable child whose existence shatters their belief in a benign world. The fifth child Doris Lessing, 1984

**The Future of the Fifth Child** Sid Gardner, 2016-03-10 The premise of this book is that 400 million children, none in five children alive, are abused and neglected in ways that could affect their entire lives, and that greater progress in protecting those children is both urgent and possible. The book reviews the long history of child maltreatment from prehistoric times to the present, contrasting statements about precious innocent children with the realities of child maltreatment around the world. Child protection is defined using the sixteen categories of maltreatment from the work of the United Nations Children's Fund. The roles of the major players in global child protection are described, noting that this field is a small part of the broader arenas of foreign aid and foreign policy. The book discusses the difficult question of what causes child maltreatment, reviewing poverty, religious and cultural practices, gender inequity, and other forms of discrimination, parental addictions, and war and its aftermath. Ten specific responses to child maltreatment are proposed, aiming at reducing the fragmentation and increasing the effectiveness of child protection programs. A critique is included on recent responses of US agencies and international counterparts, with appendices on India and China as the countries with the greatest numbers of children. *A Study Guide for Doris Lessing's "The Fifth Child"* Gale, Cengage Learning, 2016-07-12 A Study Guide for Doris Lessing's *The Fifth Child* excerpted from Gale's acclaimed *Novels for Students*.
