The Fives and Sixes Go to School Emma Dickson Sheehy, 1969 **The Fives and Sixes Go to School** Emma Dickson Sheehy, 1954 **Music and Child Development** J. Craig Peery, Irene Weiss Peery, Thomas W. Draper, 2012-12-06 I acknowledge a deep debt of gratitude to my coeditors my wife Irene and my friend and colleague Tom Draper They have worked with diligence and insight to bring this work to completion They have delegated the task of writing the Preface to me As the scientific study of human development matures it is not only natural but it is necessary to reach beyond understanding the ways humans develop capacities to study the ways emerging capacities fit into the larger sphere of human undertakings Music is one of the most significant of those endeavors As I attend the several piano competitions that are on my agenda each year and see children seated at the keyboard drawing forth the magnificent sounds of Bach Chopin and Ravel I am always a little awed Surely it seems to me the piano is among the best of man's creations the creative energies of great composers are among mankind's greatest expressions and encouraging children to associate themselves seriously with both instrument and composer can be one of the great blessings to their young lives and by association to the larger society Music touches the entire range of our lifespan on a daily basis Involving children with music and music training has high market and common sense validity Parents understand intuitively that children will benefit and their lives will be enriched if they are influenced by music and music training The Rôle of the Teacher in the Infant and Nursery School Dorothy E. M. Gardner, Joan E. Cass, 2014-05-15 The Role of the Teacher in the Infant and Nursery School covers chapters about the role of the teacher in primary school The book discusses the developments in English infant and nursery schools and of the teachers functions the acknowledgment of some other work in teaching field the scope and method of conducting the enquiry and results of the analysis of the most important motive behind the actions of the teachers The text describes the techniques used by different teachers techniques used by teachers of different age groups in the infant school and analysis of the teaching given in free choice periods under Subjects of the school curriculum The aspects of the teachers work which are relevant to informal teaching but on which evidence cannot be obtained by samples taken during periods of free occupation and some opinions of the teachers are also considered Educators especially those from the primary school will find the book invaluable
