The Fathers of the Western Church Robert Payne,1989-01-01 **The fathers of the church in the second and third centuries** Edmond de Pressensé,1871 **Parent/Teacher Handbook** Edward Buchanan,2006-04 Growing out of a conviction that we need to provide older children with a greater understanding of their Christian heritage and the Bible Dr Edward Buchanan has authored two resources that are both educational and biblically sound Parent Teacher Handbook Teaching Older Children Everything They Need to Know About the Bible volume 3 uses a chronological Bible story approach giving leaders and teachers the core content and information needed to teach children about the Bible Parent Teacher Handbook Teaching Older Children Everything They Need to Know About Their Christian Heritage volume 4 covers the basics of our Christian heritage and faith including Jewish traditions missions hymnody art science and ethics **The Reception of the Church Fathers in the West** Irena Backus,1997 **Tradition and Authority in the Western Church, 300-1140** Karl F. Morrison,2015-12-08 Beginning with the conversion of Constantine in 312 and the establishment of the Christian Empire the book continues through the Middle Ages up to the publication of Gratian's Decretum the great systematic book of Church law which transformed the idea of tradition into legal concepts Throughout this period the hierarchy was called upon to deal with such fundamental questions as the nature of tradition and the extent of its authority the infallibility of the pope and the proper role of the laity in defining dogma Originally published in 1969 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Marriage in the Western Church* Philip Lyndon Reynolds,2015-12-22 Marriage in the Western Church examines how marriage acquired a specifically Christian identity in the Western Church from the patristic through Carolingian periods It shows how theologians came to regard marriage as an ecclesiastical institution and how they developed a Christian theology of marriage The first part of the book deals with marriage and divorce in Roman and Germanic law Other parts deal with marriage and divorce in ecclesiastical law with the Latin Fathers distinction between the divine and human laws of marriage and with the customary stages by which persons became married Several chapters are devoted to Augustine's views on marriage and sexuality The author shows how the doctrine of indissolubility became the West's chief means of christianizing marriage and how theologians found here their preferred arguments for affirming the holiness and the sacramentality of marriage The author argues that the Western regime of indissolubility was the product of a fourth century reform movement This publication has also been published in paperback please click here for details
