The First Americans James Adovasio, Jake Page, 2009-01-16 J M Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates Who were the first humans in the Americas and how and when did they get there At its heart *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about and the firestorm it has ignited As he writes The work of lifetimes has been put at risk reputations have been damaged an astounding amount of silliness and even profound stupidity has been taken as serious thought and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science

The First Americans Geoffrey Hext Sutherland Bushnell, 1968 The pre Columbian civilization of Mexico Mesoamerica and South American offer paradoxical mixtures of refinement and barbarity of technological sophistication and backwardness The fabulous stone city of Macchu Picchu for example was built high in the Andes by a people who lacked such seemingly indispensable aids as the wheel and domesticated animals And the splendidly organized civilizations which Cortes and Pizarro found in Mexico and Peru were characterized by practices almost unequalled in their barbarity In this profusely illustrated volume Dr Bushnell draws on the latest archaeological findings to present the history of the Indian civilizations in America from 5000 B C to the Hispanic conquests G H S Bushnell is Reader in New World Archeology at Cambridge University Curator of the university's Museum of Archaeology and Ethnology and the author of *Peru and The Ancient Arts of the Americas* Publisher
