Subcommittee on Foreign Trade Policy,1958    *Canadiana* ,1985    *Jobs with Inequality* John Peters,2022-06-29 Income inequality has skyrocketed in Canada over the past few decades The rich have become richer while the average household income has deteriorated and job quality has plummeted Common explanations for these trends point to globalization technology or other forces largely beyond our control But as *Jobs with Inequality* shows there is nothing inevitable about inequality Rather runaway inequality is the result of politics and policies what governments have done to aid the rich and boost finance and what they have not done to uphold the interests of workers Drawing on new tax and income data John Peters tells the story of how inequality is unfolding in Canada today by examining post democracy financialization and labour market deregulation Timely and novel *Jobs with Inequality* explains how and why business and government have rewritten the rules of the economy to the advantage of the few and considers why progressive efforts to reverse these trends have so regularly run aground    **The Embedded Firm** Cynthia A. Williams,Peer Zumbansen,2011-08-11 The globalization of capital markets since the 1980s has been accompanied by a vigorous debate over the convergence of corporate governance standards around the world towards the shareholder model But even before the financial and economic crisis of 2008 2009 the dominance of the shareholder model was challenged with regard to persisting divergences and national differences in corporate law labor law and industrial relations This collection explores this debate at an important crossroads echoing Karl Polanyi's famous observation in 1944 of the disembeddedness of the market from

society Drawing on pertinent insights from scholars practitioners and regulators in corporate and labor law securities regulation as well as economic sociology and management theory the contributions shed important light on the empirical effects on the economy of the shift to shareholder primacy in light of a comprehensive reconsideration of the global context policy goals and regulatory forms which characterize market governance today Catalog of Copyright Entries.
