(Bill Allan, NLES)D

Miss Susie had a baby
His name was Tiny Tim
She put him in the bathtub
To see if he could swim.

He drank up all the water.
He ate up all the soap.
He tried to eat the bathtub
But it wouldn't go down his throat.

In came the doctor.
In came the nurse.
In came the lady
With the alligator purse.

Out ran the doctor.
Out ran the nurse.
Out ran the lady
With the alligator purse.

And now Tiny Tim
Is home sick in bed,
With soap in his throat
And bubbles in his head.

Cinderella dressed in yella,
Went upstairs to see her fella,
Made a mistake and kissed a snake,
How many doctors did it take?
1, 2, 3, 4, 5...
(Count jumps out loud until jumper stops jumping)

Hot Potato
One potato, two potato, three potato,
Four.
Five potato, six potato, seven potato,
MORE.
(eight, nine, ten, and so on until the jumper reaches preset goal, such as twenty-five, or misses before the goal is met)

Apples, peaches, pears and plums,
Please jump out when your birthday comes.
January, February, March, April, May,
June, July, August, September, October,
November, December? (Everyone starts inside the rope and each student jumps out when their birthday month is called.
Reverse it by saying chant again and each student jumps in when birthday month is called.)

Strawberry shortcake, blueberry pie,
Who's gonna be my lucky guy?
A-B-C-D...

(Repeat the letters of the alphabet until the skipper gets caught in the rope. If she gets caught on T, then, your "lucky guy's" name will start with T)

Engine, engine Number 9,
Going down the Chicago Line,
See it sparkle, see it shine,
Engine, engine Number 9.
If the train should jump the tracks,
Will I get my money back?
Yes, no, maybe so...
(Repeat rhyme)

I'm a little Dutch Girl
Dressed in blue,
And these are thing
I like to do:
Salute to the captain,
Bow to the queen,
And turn my back to the submarine.
(skippers can jump out at this point, but really good jumpers would continue with this:
"I can do a tap dance
I can do a split just like this!"

Teddy Bear, Teddy Bear, turn around
Teddy Bear, Teddy Bear, touch the ground.
Teddy Bear, Teddy Bear, show your shoe
Teddy Bear, Teddy Bear, that will do.
Teddy Bear, Teddy Bear, go upstairs
Teddy Bear, Teddy Bear, say your prayers.
Teddy Bear, Teddy Bear, turn out the light
Teddy Bear, Teddy bear, say good night.

How Traditions Live and Die Olivier Morin,2016 Of all the things we do and say most will never be repeated or reproduced Once in a while however an idea or a practice generates a chain of transmission that covers more distance through space and time than any individual person ever could What makes such transmission chains possible For two centuries the dominant view from psychology to anthropology was that humans owe their cultural prosperity to their powers of imitation In this view modern cultures exist because the people who carry them are gifted at remembering storing and reproducing information How Traditions Live and Die proposes an alternative to this standard view What makes traditions live is not a general purpose imitation capacity Cultural transmission is partial selective often unfaithful Some traditions live on in spite of this because they tap into widespread and basic cognitive preferences These attractive traditions spread not by being better retained or more accurately transferred but because they are transmitted over and over This theory is used to shed light on various puzzles of cultural change from the distribution of bird songs to the staying power of

children's rhymes and to explain the special relation that links the human species to its cultures Morin combines recent work in cognitive anthropology with new advances in quantitative cultural history to map and predict the diffusion of traditions This book is both an introduction and an accessible alternative to contemporary theories of cultural evolution
