

The background of the book cover is a sepia-toned illustration. It depicts several Black children, with a young girl in the foreground looking directly at the viewer. Behind her, other children are visible, some with their faces partially obscured. On the left side, several arms and hands are shown reaching out and grasping the vertical bars of a cage or prison cell. The overall mood is somber and evocative, representing the historical context of slavery.

Slavery In The Twentieth Century The Evolution Of A Global Problem:

Slavery in the Twentieth Century Suzanne Miers, 2003 Miers has written extensively about the slave trade of days past. Here she looks at the period from 1919 to 2000 during which she says the definition of slavery was stretched to cover so many practices that the term became almost meaningless. Many of those practices were generally condemned internationally and contemporary forms of slavery became more widespread and pernicious. She highlights both the campaign against the abuses by non government organizations and the efforts by governments to avoid action and evade criticism. *Slavery in the Twentieth Century* Suzanne Miers, 2003-05-28 In her new book well known Africanist Suzanne Miers places modern slavery in its historical context tracing the phenomenal development of the international anti slavery movement over the last hundred years. She demonstrates how the problems of eradication seem greater and more intractable today than they had ever been showing how slavery has expanded to include newer forms from 1919 to 2000 some of them crueler than the chattel slavery so familiar to the public mind. Miers describes the targets of ongoing anti slavery campaigns including forced labor, forced prostitution, forced marriage, the exploitation of child labor and of migrant and contract labor. She centers her story on Great Britain's efforts to suppress the slave trade since the late eighteenth century and draws upon her extensive work in Africa where slavery has attracted the greatest humanitarian and international attention. This book is a valuable resource for those interested in world history, slavery, race and ethnic history, international human rights and labor in the world economy. *The Cambridge World History of Slavery: Volume 4, AD 1804-AD 2016* David Eltis, Stanley L. Engerman, Seymour Drescher, David Richardson, 2017-04-24 Slavery and coerced labor have been among the most ubiquitous of human institutions both in time from ancient times to the present and in place having existed in virtually all geographic areas and societies. This volume covers the period from the independence of Haiti to modern perceptions of slavery by assembling twenty eight original essays each written by scholars acknowledged as leaders in their respective fields. Issues discussed include the sources of slaves, the slave trade, the social and economic functioning of slave societies, the responses of slaves to enslavement, efforts to abolish slavery continuing to the present day, the flow of contract labor and other forms of labor control in the aftermath of abolition and the various forms of coerced labor that emerged in the twentieth century under totalitarian regimes and colonialism. *Bonded Labour and Debt in the Indian Ocean World* Gwyn Campbell, 2015-10-06 This volume of essays contains case studies of debt bondage covering the impact of an expanding globalized economy, increased commercialization, colonial and post colonial societies and emerging economies. *State Responses to International Law* Kendall Stiles, 2014-09-19 Do countries keep their promises to the international community? When they sign treaties or learn about new expectations do they take them seriously and implement them? Since we already know intuitively that not all countries do, the next question and the topic of this book is who complies. By considering a wide range of different rules, each precise enough to allow one to measure state compliance and a variety of methods we hope to

answer this question once and for all Including a systematic analysis of 8 different countries selected for the variety of regime type international engagement and economic development they represent the work caps a five year research program and represents the culmination of twenty years worth of work in the disciplines of international relations and international law on legalization and compliance Stiles highlights the importance of systematic study of compliance in order to move further towards solving truly global issues such as terrorism human trafficking air pollution and collective goods provision With international laws generally designed to improve the human condition and current levels of compliance inconsistent at best it is vital to gain a better understanding of who complies and why This detailed study will be of interest to students of Politics International Law and International Relations Gender and International Criminal Law Indira Rosenthal, Valerie Oosterveld, Susana SáCouto, 2022-06-16 The last few decades have seen remarkable developments in international criminal justice especially in relation to the pursuit of individuals responsible for sexual violence and other gender based crimes Historically ignored justified or minimised this category of crimes now has a heightened profile in the international political and judicial arena Despite this gender is poorly understood and blind spots biases and stereotypes prevail This book brings together leading feminist international criminal and humanitarian law academics and practitioners to examine the place of gender in international criminal law ICL It identifies and analyses past and current narrow understandings of gender before considering how a limited conceptualization affects accountability efforts The authors consider how best to implement a more nuanced understanding of gender in the practice of international criminal law by identifying possible responses including embedding a sophisticated gender strategy into the practice of ICL the gender sensitive application of international human rights and humanitarian law and encouraging a gender competent approach to judging in ICL The authors aim is to strengthen efforts for accountability for all atrocity crimes war crimes crimes against humanity genocide and aggression

Abolition and Its Aftermath in the Indian Ocean Africa and Asia Gwyn Campbell, 2013-01-11 This important collection of essays examines the history and impact of the abolition of the slave trade and slavery in the Indian Ocean World a region stretching from Southern and Eastern Africa to the Middle East India Southeast Asia and the Far East Slavery studies have traditionally concentrated on the Atlantic slave trade and slavery in the Americas In comparison the Indian Ocean World slave trade has been little explored although it started some 3 500 years before the Atlantic slave trade and persists to the present day This volume which follows a collection of essays The Structure of Slavery in Indian Ocean Africa and Asia Frank Cass 2004 examines the various abolitionist impulses indigenous and European in the Indian Ocean World during the nineteenth and twentieth centuries It assesses their efficacy within a context of a growing demand for labour resulting from an expanding international economy and European colonisation The essays show that in applying definitions of slavery derived from the American model European agents in the region failed to detect or deliberately ignored other forms of slavery and as a result the abolitionist impulse was only partly successful with the slave trade still continuing today in many

parts of the Indian Ocean World **The Slavery Conventions** Jean Allain, 2008 Establishing the drafting history of the 1926 and 1956 Slavery Conventions this book sets out the legal parameters of slavery and provides insights into the legal obligations undertaken by States as they were understood at the time of negotiation **Traffic in Asian Women** Laura Hyun Yi Kang, 2020-08-14 In *Traffic in Asian Women* Laura Hyun Yi Kang demonstrates that the figure of Asian women functions as an analytic with which to understand the emergence, decline and permutation of U S power knowledge at the nexus of capitalism, state power, global governance and knowledge production throughout the twentieth century. Kang analyzes the establishment, suppression, forgetting and illegibility of the Japanese military comfort system 1932-1945 within that broader geohistorical arc. Although many have upheld the comfort women case as exemplary of both the past violation and the contemporary empowerment of Asian women, Kang argues that it has profoundly destabilized the imaginary unity and conceptual demarcation of the category. Kang traces how Asian women have been alternately distinguished and effaced as subjects of the traffic in women, sexual slavery and violence against women. She also explores how specific modes of redress and justice were determined by several overlapping geopolitical and economic changes ranging from U S guided movements of capital across Asia and the end of the Cold War to the emergence of new media technologies that facilitated the global circulation of comfort women stories **The International Journal of African Historical Studies**, 1972 **The League of Nations' Work on Social Issues** Magaly Rodriguez Garcia, 2016 This edited volume offers a fresh look into the history of the League of Nations. It uses the League of Nations involvement in social issues as a unique prism for understanding the League's development as well as the development of interwar international relations more generally. Off the beaten path of diplomatic history, this perspective allows the authors to trace less familiar actors and unexpected alliances. It enables contributors to reassess the League's impact on European societies, their colonial possessions and non-European states. As such, it also marks a paradigm shift in the League's Eurocentric historiography toward one that acknowledges its global reach.
