Mruk,1999 Dr Mruk has produced a highly readable

new edition of his original scholarship on an often misunderstood psychological construct self esteem Mruk's view that self esteem is a critically important influence on psychological adjustment and quality of life is now an accepted tenet in personality theory Lack of self esteem is frequently a precursor to depression suicidal behavior and other personality disorders Nonetheless the clinical diagnosis of self esteem problems has lacked the basis of an overarching theory Dr Mruk's comprehensive analysis distills the literature on self esteem into practical and reliable treatment methods for both clinicians and researchers
