**Economics, 12/e** Richard Lipsey And Alec Chrystal, 2011-07-01      **Economics** Richard G. Lipsey, K. Alec Chrystal, 2007

The eleventh edition of this successful textbook for Economics majors has been thoroughly updated and revised to give more depth to core principles. Pitched at a level that will stretch readers but still be comprehensible for beginners, Economics is explained in a straightforward manner whilst maintaining the rigour needed to enable students to progress with their studies. The book features a depth and breadth of topics combined with a balance of technical and applied material. In-depth explanations of theoretical concepts are balanced with a range of real-world examples that help students to understand and apply the concepts they have learnt. A supporting and newly expanded Online Resource Centre features supplements for lecturers including an instructor's manual, PowerPoint slides, answers to questions in the text, class exercises, and artwork from the text. Supplements for students include self-assessment multiple-choice questions with feedback, crosswords compiled from key glossary terms, a list of useful websites, maths appendices, past exam papers, and additional case studies.

*An Introduction to Economics for Students of Agriculture* Berkeley Hill, 1990

The second edition of this introductory text for students of agriculture has been thoroughly updated. The addition of a chapter on government policy and agriculture acquaints students with the aspects of the policy process which has made such an impact in this area. The balanced text describes universal economic principles illustrated primarily by examples drawn from farming and the food industry. At the end of each chapter is an exercise making use of the preceding material, and completion of these exercises forms an integral part of the teaching function of this text. Extended answers to the questions posed in the exercises, a list of essay questions, and suggested further reading are given at the end of the book.
