*The Second Language Learning Processes of Students with Specific Learning Difficulties* Judit Kormos, 2016-12-08. The Second Language Learning Processes of Students with Specific Learning Difficulties is the only recent book available to offer a detailed and in-depth discussion of the second language learning processes of students with specific learning difficulties (SpLDs). It summarizes research advances in the fields of cognitive and educational psychology and integrates them with recent studies in the area of second language acquisition (SLA). Thus the book is relevant not only to readers who are particularly interested in the role of specific learning difficulties in learning additional languages but also to those who would like to understand how individual differences in cognitive functioning influence SLA. The book focuses on four important areas that are particularly relevant for language learners with SpLDs: the processes of SLA in general and the development of reading skills in particular; the effectiveness of pedagogical programs; the assessment of the language competence of students with SpLDs; and identifying SpLDs in another language. The book also views learners with SpLDs in their social and educational contexts and elaborates how the barriers in these contexts can affect their language learning processes. This is

an excellent resource for language teachers students and researchers in the areas of second language acquisition and applied linguistics

Learning Disabilities Maria Tzouriadou, Sotiria Tziviniou, 2021-12-13 More than 200 years of research in the field of learning disabilities have provided us with a vast body of knowledge albeit without answering the fundamental questions what and why Today it is widely accepted that learning disabilities or specific learning disabilities represent a real situation which is mainly related to education but also has long term consequences in the social and professional life of individuals who may be smart but not know how to learn This book examines transdisciplinary psychoeducational learning disability evaluation procedures along

with intervention programs aiming to recognize the strengths of students with learning disabilities and address their needs. More specifically, it reviews the origins and evolution of such assessment models and evidence-informed intervention practices and provides guidance and implications for practice and research. The book will furnish educators and other school-based professionals with a better understanding of the nuances and challenges of the field, allowing them to build their capacity of working with such student populations.
