gas emissions levels and provides a detailed analysis of the possible reduction or compensatory measures framework.

OS 5: Labour Conditions, Health and Safety – This safeguard establishes the Bank's requirements for its borrowers or clients concerning workers' conditions, rights and protection from abuse or exploitation. It covers working conditions, workers' organisations, occupational health and safety, and avoidance of child or forced labour.

Environmental and Social Assessment Procedures

The ESAPs provide information on the specific procedures that the Bank and its borrowers or clients should follow to ensure that Bank operations meet the requirements of the OSs at each stage of the Bank's project cycle.

The revised ESAPs will help improve project outcomes by replacing outdated environmental and social assessment procedures with upgraded processes based on cutting-edge

knowledge and best practice. The revision of the ESAPs will include the following:

- Amending and updating the current ESAPs to align with the provisions of the OSs;
- Providing a detailed and clear description of the steps needed to implement the OSs at every stage of the project cycle, indicating who is responsible for each step;
- Ensuring the coverage of both public and private sector lending, with specific provisions designed to fit the different circumstances applicable to private sector projects;
- Addressing various key stages in the project cycle where compliance has been weak, and introducing procedures to strengthen implementation;
- Introducing an Integrated Safeguards Tracking System

(ITS), to facilitate the tracking of ISS compliance through the project cycle and to ensure compliance before proceeding to the next stage of the project cycle; and

- Providing procedural guidance and user-friendly templates to facilitate the implementation of the steps proposed in the ESAPs during the project cycle.
- The revised ESAPs will be designed to address the following types of challenges in implementing the ISS:
- Adopting one set of ESAPs for both public and private sector lending, with different project processing cycles;
 - Designing procedures to cover the lending and investment plans for policy- and programme-based lending operations, which will now be subject to categorisation, and the requirement to use SESA for such operations that are categorised as 1 or 2;
