## **Terrorism Reader:**

*The Terrorism Reader* David J. Whittaker, 2012-12-12 The Terrorism Reader is an intriguing introduction to a notorious and disturbing international phenomenon The book draws together material from a variety of experts and clearly explains their opinions on terrorism allowing understanding conjecture and debate David J Whittaker explores all aspects of terrorism from its definition psychological and sociological effects legal and ethical issues to counter terrorism In a particularly original way the Reader illustrates the growth and variety of terrorism with a series of case studies from four continents including the Taliban and the al Qaida terror network and America's war against terrorism ETA and Spain the Revolutionary Armed Forces of Colombia the Liberation Tigers in Sri Lanka the IRA and UFF in Northern Ireland the Shining Path in Peru This new edition includes fully updated chapters on Palestine and Israel the London 7 7 bombings and a new chapter on Jihad as well as a focus on issues of contemporary concern such as state terrorism terrorist withdrawal and deradicalisation and human rights

The CRC Press Terrorism Reader Marie-Helen Maras, 2013-11-11 From CRC Press's unrivaled pool of author experts comes the ultimate reader on terrorism With information drawn from premier titles in the CRC Press collection it focuses on how to prepare for mitigate counter and respond to terror threats and acts Policy issues critical infrastructure protection terrorism funding and target selection is discussed along with weapons of mass destruction intelligence and antiterrorism efforts terrorism crisis management and responder issues The book goes beyond theory to provide practitioner knowledge from the field straight into the reader's hands delivering real world solutions to terrorist threats and acts at home and abroad

The Terrorism Reader Walter Laqueur, 1978 A Meridian book Bibliography p 287 291 **Security in the 21st century: US and European responses to global terrorism** Patrick Wagner, 2004-10-02 Master's Thesis from the year 2004 in the subject Politics Topic Peace and Conflict Security grade 2 B University of Kent Brussels School of International Studies language English abstract Although the world stood united behind America when the dust of the collapsed twin towers of the World Trade Centre settled differences between the United States and Europe soon became apparent Europe might have supported the US in Afghanistan both politically and militarily but diverging interests already became apparent when the US sidelined NATO and preferred to lead Operation Enduring Freedom itself The dispute escalated over the US plans to continue the war on terror in Iraq Here it emerged that the US and Europe do not share the same world view While the US seem to perceive the world in Hobbesian terms and believe that military strength is the only means to achieve security Europe appears to understand security in the Kantian sense and believes that perpetual peace can be achieved The question that divided Europe and the US over Iraq then is more than a simple difference of opinion but reflects a deep philosophical division Can global security be achieved by force or through sustained dedication to a set of normative principles implemented by the world community Consequently the counterterrorism strategies formulated in Europe and the US are of a fundamentally different nature which cannot be explained merely by the discrepancy in military

capabilities If that would be the case Europe would have begun to build up its military potential by now Acknowledging that terrorism has become one of the most pressing political problems David Whittaker the aim of this paper is to compare the US and the European approach to global terrorism establish reasons for the differences and evaluate which approach might be more effective As September 11 has changed our perception of security by demonstrating that even the US is despite its unrivalled military superiority vulnerable to attack carried out by just 19 men armed with cardboard cutters we should remain aware that the responses we chose to these attacks reflect our dedication to human rights the rule of law and indeed freedom Relying on military strength is easier than to acknowledge that terrorism is caused by a fundamentally unjust economical and political world order that markedly favours the West yet it might ultimately prove to become more dangerous than terrorism itself as it does nothing to resolve the problem but reinforces the world order that is the cause of the problem
