## WHAT IS SPEECH & LANGUAGE?

"Speech" can be thought of as verbal communication. It is the act of mouth, throat and vocal cords working together to produce sounds that become syllables, words, & sentences. Speech: Many carries the meaning. It is many different words.

There are three main components of speech:

- Articulation (how we make each sound)
- Intelligibility (how we "hear" sounds)
- Fluency (fluency and rhythm)

"Language" encompasses how we use speech to communicate with others in order to communicate. Language also consists of three parts: expressive (the words a person uses to communicate), receptive (the words a person understands), and grammar (the rules of communication).

Speech-Language Pathologists (SLPs) can help! SLPs are all master's-level educated individuals working to help children & adults improve communication. SLPs provide a variety of coursework & clinical placements prior to becoming SLPs.

SLPs are licensed both by the state in which they practice & the American Speech-Language-Hearing Association (ASHA) to work with individuals of varying needs & diagnoses in the areas of articulation, expressive and pragmatic language, and phonology, fluency, voice, feeding and swallowing.

SLPs typically work in clinics, schools, hospitals, or nursing homes.

## HOW TO ENCOURAGE SPEECH & LANGUAGE

**Communicative temptations:** create situations where a child needs to gesture, vocalize, or verbalize to have his or her needs met before giving desired object (e.g., bubble blower)

**Imitations:** Having a child imitate you helps him or her to produce words & sounds at appropriate times (e.g., saying "hi" to animal howl as you take them out of the box)

**Expanding:** using a child's language and expanding it to make it more complex (e.g., child says "ball," adult can say "that is your ball")

**Build vocabulary:** target and expand relevant new words (e.g., seasonal words) to help build vocabulary

**Read aloud:** emphasize & reinforce new words, ask questions about the story while reading, ask child to retell the story (if age appropriate)

**Ask questions:** posing questions about daily activities are a great way to encourage language skills, including naming & understanding functions.

**Narrate everything:** modeling your own speech and language can increase exposure to correct production & enhance a child's abilities.

This volume collects essays that approach notions of creating maintaining and crossing boundaries in the history of the English language The concept of boundaries is variously defined within linguistics depending on the theoretical framework from formal and theoretical perspectives to specific fields and more empirical physical and perceptual angles The contributions to this volume do not take one particular theoretical or methodological approach but instead explore how examining various types of boundaries linguistic conceptual analytical generic physical helps us illuminate and account for historical use variation and change in English In their exploration of various topics in the history of English contributions ask a range of questions what does it mean to set up boundaries between time periods When do language varieties have distinct boundaries and when do they overlap Where do language users draw up clausal constructional semantic phonetic phonological boundaries Thus the chapters explore not only how boundaries illustrate synchronic and diachronic features in
