**Teaching the Dimensions of Literacy** Stephen Kucer, Cecilia Silva, 2012-10-12 Teaching the

Dimensions of Literacy provides both the conceptual knowledge to support teachers instructional decisions in the reading literacy classroom and a multitude of instructional strategy lessons for classroom use with both monolingual and bilingual students. It proposes that teachers need to help children become code breakers, the linguistic dimension, meaning makers, the cognitive dimension, text users, and critics, the sociocultural dimension, and scientists, the developmental dimension. Acknowledging and addressing all four dimensions, this text links literacy theory, literacy research, and literacy practice in a useable way. Covering both reading and writing, it features clear, concise, and useable reading and writing strategy lessons and ways to modify them for different types of students. Changes in the Second Edition: Entirely reorganized; the text is more user friendly; builds a stronger link between theory and practice and makes it easier for teachers to locate appropriate strategy lessons to use with their students. Academic literacy is addressed more fully.

**Spelling Rules!** Helen Pearson, Janelle Ho, 2006. This workbook for Year 3 is part of the whole school spelling program that helps every student become a good speller. The activities help develop different forms of spelling knowledge that enable spelling to move from working memory into long term memory: making spelling stick. These different forms of knowledge include: kinaesthetic, the physical feeling when saying sounds; phonological, the sound of spelling; visual, the look and patterns of spelling; morphemic, the meaning of words.
