Terror In Bridgling:

Terrorism: Bridging the Gap with Peace and Conflict Studies Ioannis Tellidis, Harmonie Toros, 2016-01-08 This book opens up the discussion of the interrelation between terrorism studies and peace and conflict studies. The aim is to examine the instances and circumstances under which both fields can benefit from each other. Even though it is often accepted that terrorism is a form of political violence, it is also quite frequent that research on the topic is dismissed when it is approached with conflict analysis frames. More importantly, policy approaches continue to inhibit, obstruct, and reject frameworks that are concerned with the transformation and resolution of terrorist conflicts, partly because they see the state as the ultimate referent object to be secured. At the same time, peace and conflict studies seem to be excessively focused on problem-solving approaches which overemphasise the role of parity during negotiations and misdiagnose the distribution of power both within conflicts as well as within conflict management, resolution, and/or transformation approaches. This book was published as a special issue of *Critical Studies on Terrorism*

Maritime Terrorism and the Role of Judicial Institutions in the International Legal Order Md Saiful Karim, 2016-10-05 In *Maritime Terrorism and the Role of Judicial Institutions in the International Legal Order* Md Saiful Karim offers a critical analysis of the role of judicial institutions in combating maritime terrorism. This book comprehensively examines the existing international legal framework for combating maritime terrorism and argues for an updated framework to tackle modern threats. In particular, Karim highlights the important task of national courts in the prosecution of suspected maritime terrorists as well as the settlement of disputes arising from maritime terrorism. It fills in important gaps in the existing literature and proposes a path for the influence of international juridical institutions

Understanding Terrorism Yaser Esmailzadeh, 2024-11-27 Terrorism is a relentless phenomenon that continues to haunt the human race, affecting societies across the world. While the world continues to interconnect with one another, terrorism too continues to evolve, adapting to the changing contours of political, social, and economic landscapes. This book focuses on the political, economic, psychological, social, and cultural factors that underpin terrorism, shedding light on the conditions and motivations that give rise to such acts. As such, the book aims to equip readers with the necessary knowledge and tools to comprehend this complex phenomenon as well as providing the necessary knowledge to contribute to informed debates on counterterrorism. The case studies that are written in this book will help readers understand the complex dynamics at play as well as the many different concepts of terrorism itself. With this, it is with hope that future generations may use this book as a basis to explore the potential emergence of other waves of terrorism and to develop advanced prospects for effective counterterrorism in the face of these evolving challenges
