Testament Of A Critic:

The Critic, 1893 **Critic and Literary World** Jeannette Leonard Gilder, Joseph Benson Gilder, 1898 Old Testament Criticism in the Nineteenth Century John Rogerson, 2010-06-01 The study of Old Testament criticism requires the bridges of an important cultural gap because the home of the method and the place of its most creative use is still Germany In this authoritative work British scholar John Rogerson discusses two specific questions how did the critical method arise in Germany in the nineteenth century and how was its reception into England affected by the theological and philosophical climate This is the first book which attempts to trace in such detail the impact of German critical method upon scholarship in England As such it is a valuable contribution to the history of Old Testament scholarship and to the history of ideas Part I examines German scholarship from 1800 to 1860 from the founder of modern criticism W M L de Wette through to the submergence of this early radicalism by the so called positive criticism and the confessional orthodoxy led by Hengstenberg Part II investigates the use of Old Testament criticism in England with particular attention to contacts between Germany and England and to a comparison of the respective intellectual climates Part III focuses again on German scholarship particularly on the rebirth of de Wette's ideas as expressed by Julius Wellhausen It explains how the reception of Wellhausen in England involved a modification of his position in the light of neo Hegelian philosophy *The Critical Review of Theological & Philosophical Literature* Stewart Dingwall Fordyce Salmond, 1891 *Changing the Goalpost of New Testament Textual Criticism* Abidan Paul Shah, 2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular to retrieve the original text of the New Testament Since then the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice **Modern Biblical Criticism as a Tool of Statecraft (1700-1900)** Scott Hahn, Jeffrey L. Morrow, 2020-04-27 Modern biblical scholarship is often presented as analogous to the hard and natural sciences its histories present the developmental stages as quasi scientific discoveries That image of Bible scholars as neutral scientists in pursuit of truth has persisted for too long Modern Biblical Criticism as a Tool of Statecraft 1700-1900 by Scott W Hahn and Jeffrey L Morrow examines the lesser known history of the development of modern biblical scholarship in the eighteenth and nineteenth centuries This volume seeks partially to fulfill Pope Benedict XVI's request for a thorough critique of modern

biblical criticism by exploring the eighteenth and nineteenth century roots of modern biblical scholarship situating those scholarly developments in their historical philosophical theological and political contexts Picking up where Scott W Hahn and Benjamin Wiker s Politicizing the Bible The Roots of Historical Criticism and the Secularization of Scripture 1300 1700 left off Hahn and Morrow show how biblical scholarship continued along a secularizing trajectory as it found a home in the newly developing Enlightenment universities where it received government funding Modern Biblical Criticism as a Tool of Statecraft 1700 1900 makes clear why the discipline of modern biblical studies is often so hostile to religious and faith commitments today
