## Testing Structural Equation Models:

Testing Structural Equation Models Kenneth A. Bollen, J. Scott Long, 1993-02 What is the role of fit measures when respecifying a model Should the means of the sampling distributions of a fit index be unrelated to the size of the sample Is it better to estimate the statistical power of the chi square test than to turn to fit indices Exploring these and related questions well known scholars examine the methods of testing structural equation models SEMs with and without measurement error as estimated by such programs as EQS LISREL and CALIS
