*Criminality and Criminal Justice in Contemporary Poland* Konrad Buczkowski,Beata Czarnecka-Dzialuk,Witold Klaus,Anna Kossowska,Irena Rzeplińska,Dagmara Woźniakowska-Fajst,Dobrochna Wójcik,2016-03-09 Criminality has accompanied social life from the outset It has appeared at every stage of the development of every community regardless of organisation form of government or period in history This work presents the views of criminologists from Central Europe on the phenomenon of criminality as a component of social and political reality Despite the far advanced homogenisation of culture and the coming together of the countries that make up the European Union criminality is not easily captured by statistics and simple comparisons There can be huge variation not only on crime

reporting systems and information on convicts but also on definitions of the same crimes and their formulations in the criminal codes of the individual European countries This book fills a gap in the English language criminological literature on the causes and determinants of criminality in Central Europe Poland as the largest country in the region whose political post war path has been similar to the other countries in this part of Europe is subject to an exhaustive and original look at criminality as part of the political and social reality The authors offer a contribution to the debate in the social and criminal policy of the state over the problems of criminality and how to control it *Political Trials in Poland 1981-1986* Andrzej Swidlicki,2024-04-01 First published in 1988 *Political Trials in Poland 1981-1986* describes the major political trials which took place in Poland between 1981 and 1986 Based on extensive original research using both official and unofficial information from Poland and interviews with Solidarity activists it shows how the trials constituted an attempt by the Jaruzelski regime to break the back of the independent Solidarity movement by judicial and penal measures It discusses how the authorities abused the law and how the law itself leaves much to be desired and it charts the different human rights that were violated in each case It considers the implications of the abuse of law in this way for the rule of law and the image of the state in communist countries This book will be of interest to students of history and political science *Polish Contributions to Criminology* Błażej Kaucz,2025-08-26 This collection brings together academics and practitioners currently researching topics relevant to Polish criminology It showcases the breadth and depth of criminological research in Poland Furthermore it places the volume within its post Soviet past and global context alongside the international literature outlining its many contributions to the field It encompasses a broad range of criminological interests such as critical criminology and social control policing penitentiary and post penitentiary systems restorative justice crimes of the powerful white collar crime etc The edited collection serves as an invaluable resource for scholars students policymakers and practitioners seeking a comprehensive understanding of crime and justice in Poland as well as those interested in comparative criminology and the broader European context **Social Control and Justice** Leslie Sebba,1996 This book comprises Historical and Theoretical Studies including articles on the control of women and police research a section interrelating Penal Welfare and Psychiatric Control and Post Socialist Societies raising issues at the cutting edge of contemporary discussions on social control The final and largest section incorporates a variety of approaches on the amorphous concept of Community both on a general conceptual level and as applied to particular societies such as Norway Nigeria and the Israeli kibbutz **Sociological Abstracts** Leo P.
