Social Origins Of The New South Alabama 18601885

James C. Cobb

Social Origins Of The New South Alabama 1860-1885:

Industrialization and Southern Society, 1877-1984 James C. Cobb, 2021-10-21 In the 1880s Southern boosters saw the growth of industry as the only means of escaping the poverty that engulfed the postbellum South. In the long run, however, as James C. Cobb demonstrates in this illuminating book, industrial development left much of the South's poverty unrelieved and often reinforced rather than undermined its conservative social and political philosophy. The exploitation of the South's resources largely by interests from outside the region was not only perpetuated but in many ways strengthened as industrialization proceeded. The 20th Century brought increasing competition for industry that favored management over labor and exploitation over protection of the environment. Even as the South blossomed into the Sunbelt in the late twentieth century, it is clear Cobb argues that the region had been unable to follow the path of development taken by the northern industrialized states and that even an industrialized South has yet to escape the shadow of its deprived past. **The Origins of Southern Sharecropping** Edward Royce, 1993-10-20 Revised perspective on sharecropping *Southern Capitalism* Philip J. Wood, 1986-08-13 Southern Capitalism challenges prevailing views of Southern development by arguing that the persisting peculiarities of the Southern economy such as low wages and high poverty rates have not resulted from barriers to capitalist development nor from the lingering influence of planter values. Wood argues that these peculiarities can instead be best understood as the consequence of a strategy of capitalist development based on the creation and preservation of social conditions and relations conducive to the above average exploitation of labor by capital, focusing on the evolving relationship between capital and labor as the core of this strategy. Wood follows the process of capitalist industrialization in North Carolina from its beginnings in the aftermath of the Civil War to the 1980s. **The Impact of the Civil War and Reconstruction on Arkansas** Carl H. Moneyhon, 2002-01-01 This groundbreaking study, first published in 1994, draws on a rich variety of primary sources to describe Arkansas society before, during, and after the Civil War. While the Civil War devastated the state, this book shows how those who were powerful before the war reclaimed their dominance during Reconstruction. Most importantly, the white elite's postwar commitment to a cotton economy led them to set up a sharecropping system very much like slavery, in which workers had little control over their own labor. In arguing for both change and continuity, Moneyhon reconciles contemporary accounts of the war's effects while addressing ongoing debates within the historical literature. A Companion to the Civil War and Reconstruction Lacy Ford, 2011-03-21 *A Companion to the Civil War and Reconstruction* addresses the key topics and themes of the Civil War era with 23 original essays by top scholars in the field. An authoritative volume that surveys the history and historiography of the U.S. Civil War and Reconstruction, it analyzes the major sources and the most influential books and articles in the field. Includes discussions on scholarly advances in U.S. Civil War history. **Rich Man's War** David Williams, 2011-03-15 In *Rich Man's War*, historian David Williams focuses on the Civil War experience of people in the Chattahoochee River Valley of Georgia and Alabama to

illustrate how the exploitation of enslaved blacks and poor whites by a planter oligarchy generated overwhelming class conflict across the South eventually leading to Confederate defeat This conflict was so clearly highlighted by the perception that the Civil War was a rich man s war and a poor man s fight that growing numbers of oppressed whites and blacks openly rebelled against Confederate authority undermining the fight for independence After the war however the upper classes encouraged enmity between freedpeople and poor whites to prevent a class revolution Trapped by racism and poverty the poor remained in virtual economic slavery still dominated by an almost unchanged planter elite The publication of this book was supported by the Historic Chattahoochee Commission The Origins of the Southern Middle Class, 1800-1861 Jonathan Daniel Wells,2004 Origins of the Southern Middle Class 1800 1861 *A Companion to the Gilded Age and Progressive Era* Christopher McKnight Nichols,Nancy C. Unger,2017-01-10 A Companion to the Gilded Age and Progressive Era presents a collection of new historiographic essays covering the years between 1877 and 1920 a period which saw the U S emerge from the ashes of Reconstruction to become a world power The single definitive resource for the latest state of knowledge relating to the history and historiography of the Gilded Age and Progressive Era Features contributions by leading scholars in a wide range of relevant specialties Coverage of the period includes geographic social cultural economic political diplomatic ethnic racial gendered religious global and ecological themes and approaches In today s era often referred to as a second Gilded Age this book offers relevant historical analysis of the factors that helped create contemporary society Fills an important chronological gap in period based American history collections **Encyclopedia of American Social History** Peter W. Williams,1993 A combination of the scholarship of historians and work in ethnology gender study geography literature religion anthropology and sociology **From the Old South to the New** Walter J. Fraser,Winfred B. Moore,1981-10-27 This meaty collection of 19 original essays charts continuity and change in the South from the mid 19th century to the present by examining race relations crime and violence urban growth civic and political leadership mythology and thought These perceptive suggestive essays provide the best guides available to the changing South An important book recommended for university libraries **The Meaning of Freedom** Frank S. McGlynn,Seymour Drescher,1992 In The Meaning of Freedom scholars from a wide variety of disciplines contemplate the aftermath of slavery focusing on Caribbean societies and the southern United States They attempt to answer the questions about culture economics and politics central to this issue **The New Republic** Herbert David Croly,1979 **The Unfinished Nation** Alan Brinkley,2000 **Classes, Class Conflict, and the State** Maurice Zeitlin,1980 The Road to Redemption Michael Perman,1984 Road to Redemption Southern Politics 1869 1879 **The Journal of Southern History** Wendell Holmes Stephenson,2005 Includes section Book reviews **Coffee and Power** Jeffery M. Paige,1997 To explain this extraordinary turn of events is the task of this landmark book which fuses political economy and cultural analysis **The Journal of Mississippi History** ,2008 Includes section Book reviews **History, Culture, and Society** Mario T. García,1983 **Reaping the Whirlwind** Robert Jefferson

Norrell, 1986 A narrative history of the civil rights movement in Tuskegee Alabama home to an unusually large professional class of African Americans capable of challenging the authority of white conservatives
