*Social Crisis and Social Demoralization* Ronald Kuykendall, 2005 This alternative perspective on the problem of American race relations takes sharp aim at the issues of status power and political class Arguing that the racial problem is a political class conflict that must be resolved through revolutionary struggle this insightful exploration adeptly unravels the complex interrelationships of status political repression and social stratification involved in American race issues As the social crisis of race relations threatens to boil over in 21st century America the content of this book is a critical look at the roots of the race problem as a power dynamic and asks what solutions if any seem possible Dictionary of Sociology Henry Pratt

Fairchild, 1944-01-15 Preface Every science must have its special vocabulary or terminology Sciences deal with ideas thoughts and concepts and these must be expressed in words Even the facts which are the groundwork of science must be set forth largely in words No science therefore can have any more precision and exactitude than the words or other symbols such as mathematical or chemical formulae in which it is embodied Quite generally this situation calls for a special dictionary or glossary for each particular science W.E.B. Akassi, 2018-11-02 As the rich words from the African proverbs resonate into the twenty first century regarding the importance of identity and telling the stories of people of African descent through the eyes of the people the grand rhetorician and griot of the twentieth century Dr William Edward Burghardt Du Bois s infamous problem remains so today the problem of the colour line After the election of Barack Hussein Obama the first African American president of the United States after the Civil Rights Movement after Brown versus the Board of Education after the students right to their own language after Plessy versus Ferguson and the murders of innocent young African American males including Emmett Till Timothy Thomas Trayvon Martin John Crawford III Tamir Rice Jordan Davis Eric Garner and Mike Brown people of African descent are still battling with being labelled a problem in one s own country while the USA continues to strive for a post racial era W E B Du Bois s rhetoric and motives in general are more relevant today than ever in reassessing what he so eloquently describes and unveils through the phrase double consciousness in *Souls of Black Folk* 1903 through which he reveals the feeling of a problem This ground breaking volume featuring contributions from W E B Du Bois s great grandson Arthur McFarlane II among others is organized into three parts Part I focuses on the foundation of Du Bois s Africana Rhetoric through the origins of Africana Studies Pan Africanism and Africana Critical Theory Part II focuses on Du Bois s rhetorical strategies and rhetorical analyses in his scholarship and life Part III focuses on gender and sexuality in Du Bois s selected works This work the first of its kind devoted exclusively to Du Bois s rhetoric and motives can serve as a blueprint for today as the struggle toward a post racial society continues *A Theory of Social Control* Richard Tracy LaPiere, 1954
