debate is not new but until now the notion of a social Europe remained vague and elusive To make progress we need a coherent conception of the reasons behind and the agenda for not a social Europe but a new idea a European Social Union We must motivate define and demarcate an appropriate notion of European solidarity We must also understand the legal and political obstacles and how these can be tackled In short we need unequivocal answers to questions of why what and how on that basis we can define a clear cut normative and institutional concept That is the remit of this book it provides an in depth interdisciplinary examination of the rationale and the feasibility of a European Social Union Outstanding scholars and top level practitioners reflect on obstacles and solutions from an economic social philosophical legal and political perspective

Men, Masculinities and Poverty in the UK Sandy Ruxton,2002 Men

Masculinities and Poverty in the UK was commissioned by Oxfam s UK Poverty Programme to explore how changing economic social and political circumstances are affecting gender relations Sandy Ruxton draws upon a review of the relevant literature and the experience of a wide range of community based groups across the UK in particular those working in the fields of employment training men s health gender based violence and fatherhood He highlights the importance of using a coherent gender analysis to assess the nature scope and effectiveness of work with men and concludes with

recommendations for developing work with men in the UK in order to address poverty and gender inequality *Talking*

Politics Kum-Kum Bhavnani,1991-06-06 Originally published in 1991 this study examines the views of politics presented by young people in contemporary Britain Bhavnani argues that previous studies of youth and youth culture were limited by too great a reliance on simple survey techniques and by lack of attention to conceptions of politics amongst young people and to politics as a series of lived relationships rather than a set of external objects Instead she uses ethnographic approaches and open response interviewing within the broad theoretical framework of social representations The political is taken to refer to the ways in which people regulate and attempt to regulate with a view to challenging unequal social relationships Within this the specific issues examined are employment unemployment youth training schemes democracy and voting racism and marriage Bhavnani s analysis organised by themes such as disposable income and social and personal control tackles questions of power in the research process and a notion of discursive configurations as distinct from social representations
