Social Groups And Religious Ideas In The Sixteenth Century:

Religion, Government and Political Culture in Early Modern Germany J. Wolfart, 2001-12-05 The story of conflict in an island community offers a valuable case study for the analysis of early modern German political culture Investigations range from interpersonal relations to dynamics of civic church and imperial government Chronicled throughout are the interactions of two opposing principles in modern society secular vs spiritual and public vs private These are found to operate both discursively and institutionally and are deployed to help establish sovereign authority Obrigkeit as well as to articulate resistance in the form of bourgeois republican ideology *Always Among Us* Lee Palmer Wandel, 2003-10-30 In this elegantly written book Lee Wandel discusses the relationship between the reform of poor relief and the Protestant Reformation in early sixteenth century Zurich In the introduction she traces the various ways that poverty had been evaluated and its social and religious connotations up to the sixteenth century The first chapter provides a portrait of sixteenth century Zurich The next three chapters explore the discussion of the poor in various media of the town The second chapter examines the sermons and pamphlets of Huldrych Zwingli who was preaching that the poor were the true images of God The third chapter addresses printed images depicting Christ calling beggars and other poor folk to Him which appeared on title pages of Zwingli's pamphlets The fourth chapter turns to the language of legislation and in particular the poor ordinances of 1520 and 1525

John Jewel and the English National Church Gary W. Jenkins, 2016-05-06 John Jewel 1522-1571 has long been regarded as one of the key figures in the shaping of the Anglican Church A Marian exile he returned to England upon the accession of Elizabeth I and was appointed bishop of Salisbury in 1560 and wrote his famous *Apologia Ecclesiae Anglicanae* two years later The most recent monographs on Jewel now over forty years old focus largely on his theology casting him as deft scholar adept humanist precursor to Hooker arbiter of Anglican identity and seminal mind in the formation of Anglicanism Yet in light of modern research it is clear that much of this does not stand up to closer examination In this work Gary Jenkins argues that far from serving as the constructor of a positive Anglican identity Jewel's real contribution pertains to the genesis of its divided and schizophrenic nature Drawing on a variety of sources and scholarship he paints a picture not of a theologian and humanist but an orator and rhetorician who persistently breached the rules of logic and the canons of Renaissance humanism in an effort to claim polemical victory over his traditionalist opponents such as Thomas Harding By taking such an iconoclastic approach to Jewel this work not only offers a radical reinterpretation of the man but of the Church he did so much to shape It provides a vivid insight into the intent and ends of Jewel with respect to what he saw the Church of England under the Elizabethan settlement to be as well as into the unintended consequences of his work In so doing it demonstrates how he used his Patristic sources often uncritically and faultily as foils against his theological interlocutors and without the least intention of creating a coherent theological system
