

SOCIOLOGICAL PARADIGMS

Sociological paradigms are the broad schools of thought in sociology. The three key sociological paradigms are functionalism, conflict theory, and symbolic interactionism.

1. FUNCTIONALISM

Argues that social stability is a prerequisite for a healthy and strong society. Social institutions contribute towards social stability. Abrupt social change imperils social order.

2. CONFLICT THEORY

Argues that society is built upon enduring inequality on the basis of social class, gender, race etc. Structural social change is required to create an egalitarian society.

3. SYMBOLIC INTERACTIONISM

Argues that we construct society through a range of symbols (e.g., words, gestures) and social interactions. People make up their roles as they interact.

Social Structure Of Christian Families A Historical Perspective:

Constructing Early Christian Families Halvor Moxnes, 2002-06 Constructing Early Christian Families explores the complex picture of family relations and the manifold attitudes to the family in the early Christian world Sex and the Single Savior Dale B. Martin, 2006-01-01 Probing into numerous questions about gender and sexuality Dale Martin delves into the biblical texts anew and unearths surprising findings Avoiding preconceptions about ancient sexuality he explores the ethics of desire and marriage and pays careful attention to the original meanings of words especially those used as evidence of Paul's opposition to homosexuality For example after a remarkably faithful reading of the scriptural texts Martin concludes that our contemporary obsession with marriage and the whole search for the right sexual relationships is antithetical to the message of the gospel In all of these essays however Martin argues for engaging Scripture in a way that goes beyond the standard historical critical questions and the assumptions of textual agency in order to find a faith that has no foundations other than Jesus Christ *Diversity in Couple and Family Therapy* Shalonda Kelly, 2016-12-12 This unprecedented volume provides a primer on diverse couples and families one of the most numerous and fastest growing populations in the United States illustrating the unique challenges they face to thrive in various cultural and social surroundings In *Diversity in Couple and Family Therapy* Ethnicities Sexualities and Socioeconomics a clinical psychologist and couples and family therapist with nearly two decades experience leads a team of experts in addressing contemporary elements of diversity as they relate to the American family and covering key topics that all Americans face when establishing their identities including racial and ethnic identity gender and sexual orientation identity religious and spiritual identity and identity intersections and alternatives Moreover it includes chapters on cross cultural assessment of health and pathology and tailoring treatment to diversity Every chapter includes vignettes that serve to illustrate the nuances of and solutions to the concerns and issues as well as the strengths and resilience often inherent in diverse couples or families Effective methods of coping with stereotypes intergenerational trauma discrimination and social and structural disparities are presented as are ways to assess and empower couples and families This text includes experiences and traditions of subgroups that typically receive little attention from being seen as too common such as white and Christian families or from being seen as too uncommon such as couples and families from specific Native American tribes and multiracial couples and families Thus it addresses the curricular changes needed to master the diversity found in contemporary American couples and families The text offers a holistic perspective on diverse couples and families that is consistent with the increasing prominence of models that transcend individual diagnoses and biology to include social factors and context Theory policy prevention assessment treatment and research considerations are included in each chapter Topics include African American Asian American Latino Native American white biracial multiracial intercultural LGBT Christian Jewish and Muslim couples and families as well as diverse family structures The depth of every chapter includes attention to subgroups within each category such as African American

and Caribbean couples and families as well as those who represent the intersection between varying oppressed identities such as an intercultural gay family or a poor homeless interracial couple Additionally each chapter provides a review section with condensed and easy to understand summaries of the key take away lessons *The Bible and Children in Africa* Lovemore Togarasei, Joachim Kügler, 2014-12-30 **The Social Structure of Christian Families** Brian W. Grant, 2000 This comprehensive study traces the history of Christian family practices from ancient Israel to today with an emphasis on the past 500 years Grant looks at how the shape of the family has influenced the theological shape of the church paying particular attention to the family's role in the theology of today's church He concludes with a discussion of a contemporary constructive theology of family **Baptism and Spiritual Kinship in Early Modern England** Will Coster, 2017-03-02 Despite the importance of the subject to contemporaries this is the first monograph to look at the institution of godparenthood in early modern English society Utilising a wealth of hitherto largely neglected primary source data this work explores godparenthood using it as a framework to illuminate wider issues of spiritual kinship and theological change It has become increasingly common for general studies of family and religious life in pre industrial England to make reference to the spiritual kinship evident in the institution of godparenthood However although there have been a number of important studies of the impact of the institution in other periods this is the first detailed monograph devoted to the subject in early modern England This study is possible due to the survival contrary to many expectations of relatively large numbers of parish registers that recorded the identities of godparents in the sixteenth and seventeenth centuries By utilising this hitherto largely neglected data in conjunction with evidence gleaned from over 20 000 Wills and numerous other biographical legal and theological sources Coster has been able to explore fully the institution of godparenthood and the role it played in society This book takes the opportunity to study an institution which interacted with a range of social and cultural factors and to assess the nature of these elements within early modern English society It also allows the findings of such an investigation to be compared with the assumptions that have been made about the fortunes of the institution in the context of a changing European society The recent historiography of religion in this period has focused attention on popular elements of religious practice and stressed the conservatism of a society faced with dramatic theological and ritual change In this context a study of godparenthood can make a contribution to understanding how religious change occurred and the ways in which popular religious practice was affected *Feminist Theories and Feminist Economics* Kavous Ardalan, 2021-10-30 In *Feminist Theories and Feminist Economics A Multi Paradigmatic Approach* Kavous Ardalan examines four paradigms of feminist theory and economics and their social impact Analyzing the insights of these paradigms functionalist interpretive radical humanist and radical structuralist Ardalan offers a comprehensive view of feminist thought advocating for a multi paradigmatic approach to understanding feminist research and its economic relevance for society *The Century Illustrated Monthly Magazine* ,1890 *Choice* ,2001 *Traditional Dwellings and Settlements Review* ,1993 **The Church as**
