The Burning Bush Edward Reaugh Smith, 1997 Even more significant for Christianity

in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works. Virtually unavailable until the end of the twentieth century, English translations from the German archives are gradually coming into print. Both Steiner and his works have thus far been virtually unknown in traditional theological circles. No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy. Now ten years after first encountering a written comment about Rudolf Steiner, Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner. The result is the first Bible commentary in the light of anthroposophic insight. This is the first volume of a series of Bible commentary by the author. It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century. Bible commentaries have always reflected the general line of thinking of their authors. However, the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here. A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork. A major assumption indulged in most Bible commentaries, that one can go directly to portions dealing with given passages of scripture and understand what is being said about them, does not fit.

The Social Challenge Rudolf Steiner, 2025-10-20. What underlies the entire thrust and direction of these lectures is that we are not dealing with some arbitrary programme or scheme; we are not dealing with the intentions or opinions of this or that social class. Rather, it is a matter of tapping into what prompts the deepest, most realistic impetus for the coming decades in human evolution. In the shadow of a war-torn Europe, philosopher and spiritual thinker Rudolf Steiner offered a radical and human-centered alternative to the political and economic upheaval of his time. In this seminal lecture series, Steiner introduces the concept of social threefolding, a visionary framework that perceives society as consisting of three interdependent realms encompassing cultural freedom, legal equality, and economic solidarity. With clear-eyed critiques of both capitalism and socialism, Steiner proposes a path that honours individual dignity, principled cooperation, and true social renewal. From fair wages and educational reform to property ethics and global cooperation, his insights remain strikingly relevant to the modern world. Rooted in anthroposophy and born out of the post-World War I crisis, these lectures are a clarion call for a humane, just, and spiritually conscious society, a contemporary guide for those seeking new answers to today's challenges. The first official publication of these lectures features Rudolf Steiner's preparatory notes for his lectures, an introduction by William Forward, extensive editorial notes, and an index. Six lectures, Feb-March 1919, Zurich, GA 328.

Healing the Social Organism Rudolf Steiner, 2024-11-18. Speaking just months after the end of the First World War, Rudolf Steiner urges his audience to awaken to the practical relevance of spiritual knowledge. Serious engagement with contemporary spiritual scientific concepts can awaken healthy forces of the will, which in turn facilitate constructive action in the outer world. Conversely, ideas that are remnants of a previous age, echoed in empty phrases and dogmas, only hinder our ability to think with the consciousness.

demanded by the times destroying the potential for true social initiative The historical context of these lectures was indeed disastrous with inflation hunger homelessness and political extremism all rife But Steiner advises that social conditions will only get worse if people don't engage with modern spiritual impulses Thus in contrast to the backward phenomenon of nationalism and the contemporary caricature of democracy he introduces the future oriented concept of social threefolding He discusses manifold challenges such as the decline of the West and the outmoded spiritual impulses of Jesuitism and Freemasonry but also the positive path for an ascent of Western societies genuine spiritual medicine the true message of Easter and the victory of the Archangel Michael In several lectures Rudolf Steiner speaks in some detail about the role and structure of the Catholic Church the historical use of encyclicals and the doctrine of Papal Infallibility The first full translation of this course features an introduction by Dorothy Hinkle Uhlig notes and an index Seventeen lectures Dornach Mar Jul 1920 GA 198 Proceedings of the Society for Psychical Research Society for Psychical Research,1895 **Journal of the American Society for Psychical Research** American Society for Psychical Research,1912 List of members in v 1 6 12 **Proceedings of the Society for Psychical Research** Society for Psychical Research (Great Britain),1895 List of members in v 1 19 21 24 The Congregationalist Robert William Dale,James Guinness Rogers,1873 Social Origins and Early Features of the Scientific Study of Black American Children and Families Diana T.
