- Constructing Memories of Ourselves and Our Worlds
  - Do you agree or disagree with the following statement:
    - “Memory can be likened to a storage chest in the brain into which we deposit material and from which we can withdraw if later needed. Occasionally, something is lost from the chest, and then we say we have forgotten.”
    - 85% of college students agree. However, psychology has proved the opposite. We construct memories at the time of withdrawal.
    - False Memories

## **Social Worlds Of Sentencing:**

**Social Worlds of Sentencing** Jeffery T. Ulmer, 1997-07-31 Many states and the federal system have embraced sentencing guidelines as a mechanism of sentencing reform This book draws from interactionist theories of organizations and James Eisenstein's depiction of courts as communities to frame an investigation of sentencing disparity case processing and organizational relations under Pennsylvania's sentencing guidelines The author provides a statistical analysis of statewide sentencing outcomes and a comparative statistical and ethnographic analysis of three different sized county courts The statistical data show that the major influences on sentencing are legally prescribed ones but that factors such as conviction by trial race and gender and court size are also significant Ethnographic data illuminate processes behind the statistics by connecting court organizational contexts to case processing strategies and these strategies to sentencing outcomes The book concludes with twelve general propositions for future research discussing possibilities and limitations of sentencing guidelines and addressing broader issues in the sociology of crime law and organizations     Sentencing and Society Cyrus Tata, Neil Hutton, 2017-03-02 Combining the latest work of leading sentencing and punishment scholars from twelve different countries this major new international volume answers key questions in the study of sentencing and society It presents not only a rigorous examination of the latest legal and empirical research from around the world but also reveals the workings of sentencing within society and as a social practice Traditionally work in the field of sentencing has been dominated by legal and philosophical approaches Distinctively this volume provides a more sociological approach to sentencing so allowing previously unanswered questions to be addressed and new questions to be opened This extensive collection is drawn from around one third of the papers presented at the First International Conference on Sentencing and Society Almost without exception the chapters have been revised cross referenced and updated The overall themes and findings of the international volume are set out by the opening Introduction and the closing Reflections chapters Research findings on particular penal policy questions are balanced with an analysis of fundamental conceptual issues making this international volume essential reading for sentencing and punishment scholars criminal justice policy makers and graduate students     *Our Social World* Dr Jeanne H Ballantine, Keith A. **Social Organization of Law** Austin Sarat, 2004 Austin Sarat's *The Social Organization of Law* Introductory Readings begins with a simple premise law seeks to work in the world to order change and give meaning to society and describes legal processes as socially organized This book connects legal studies to the study of society in two different senses First the readings highlight law's responsiveness to various dimensions of social stratification They also draw attention to the questions of when why and how legal decisions and actions respond to the social characteristics e.g. race class and gender of those making the decisions as well as those who are subject to them These questions inevitably raise issues of justice and fairness highlighting the moral dimensions of legal life Second Sarat treats law itself as a social organization emphasizing the complex relations between its various component parts e.g. judges and jurors police and prosecutors appellate courts and trial courts The book examines the traditional subject of professional legal study namely appellate court opinions and describes some of the most pressing controversies of legal interpretation while questioning how those opinions take on meaning in social life Sarat also questions whether those at the top of law's bureaucratic structure effectively control the behavior of others in the legal system's chain of command This anthology provides accessible up to date materials such as readings on terrorism and the challenges it poses to law racial profiling and gay rights juxtaposed to the classics of the field Introductions to each reading along with the notes and questions written by the author unpack the issues and engage students enabling them to link the material from one chapter to another Additional suggested readings provide stimulus for further inquiry The *Social Organization of Law* offers students a broad perspective that treats law as a set of institutions and practices combining moral argument distinctive interpretive traditions and the social organization of violence
