## **Socialist Network:**

**The Socialist Network** Nesta Helen Webster, 1926 The object of this book is not to provide a history of Socialism but merely an account of the Socialist organizations of modern times. It gives accounts of persons connected with or giving rise to concrete societies or groups. Contents: origins of modern Socialism, Marxian Socialism, prewar period, anarchism and syndicalism, the war and pacifism, Russian revolution, world Bolshevism, Bolshevism in Great Britain, capture of trade unionism, Bolshevisation of British trade unionism, subsidiary Communist organizations, pacifism, postwar youth movements, Socialism and Christianity.

**Inhuman Networks** Grant Bollmer, 2016-08-11 Social media's connectivity is often thought to be a manifestation of human nature buried until now revealed only through the diverse technologies of the participatory internet. Rather than embrace this view, *Inhuman Networks* Social Media and the Archaeology of Connection argues that the human nature revealed by social media imagines network technology and data as models for behavior online. Covering a wide range of historical and interdisciplinary subjects, Grant Bollmer examines the emergence of the network as a model for relation in the 1700s and 1800s and follows it through marginal, often forgotten articulations of technology, biology, economics, and the social. From this history, Bollmer examines contemporary controversies surrounding social media, extending out to the influence of network models on issues of critical theory, politics, popular science, and neoliberalism. By moving through the past and present of network media, *Inhuman Networks* demonstrates how contemporary network culture unintentionally repeats debates over the limits of Western modernity to provide an idealized future where the human is interchangeable with abstract, flowing data connected through well-managed, distributed networks.

**The Socialist System** Janos Kornai, 1992-05-28 This book provides a comprehensive account of the structure, conduct, and performance of the centrally planned economies of Eastern Europe, the USSR, Communist China, and the Marxist LDCs, looking at 26 nations in all. The author focuses on reform, perhaps the most important issue facing countries such as the USSR, Poland, Hungary, and China. Bureaucracy, soft budget constraints, markets, and the nature of the socialist state are the central issues that arise in the course of reforming a socialist economy. The first half of the book deals with classical socialism and provides a theoretical summary of the main features of a now-closed period of history. The second half deals with the processes of reform and concludes that the reform of classical socialist systems is doomed to failure as they are unable to renew themselves internally.

**Transnational Socialist Networks in the 1970s** Christian Salm, 2016-04-08 *Transnational Socialist Networks in the 1970s* argues that western European socialist parties' transnational cooperation across national borders significantly influenced politics and policy making in what was the European Communities EC. It focuses on the network-like informal structures that characterised transnational cooperation between the party members and leaders of different socialist parties involved in European affairs. Taking the example of two case studies, namely EC development aid policy and EC southern enlargement policy, the book demonstrates that the socialist parties strengthened their informal transnational network.

structures for the purposes of debating ideological and programmatic issues and finding policy solutions to common challenges in both policy fields Moreover it shows that the networks developed various functions to influence European governance Against this background the analysis in this book makes not only a significant contribution to the study of transnational networks of western European socialist parties and the history of European integration but also adds to the understanding of the role of transnational networks in European politics and policy making
