

The background is a collage of historical documents and industrial scenes. At the top, there's a red banner with the title. Below it, a yellow document with the text 'CERTIFICATE FOR LESS THAN 100 SHARES' is visible. Further down, a sepia-toned illustration shows a steam locomotive and a steamship. Below that, a document with the text 'P. Himmere and Ohio Railroad' is partially visible. At the bottom, a sepia-toned illustration shows a streetcar and a horse-drawn carriage. The text 'WILLIAM G. Socializing Capital:

Socializing Capital William G. Roy, 1999-07-01 Ever since Adolph Berle and Gardiner Means wrote their classic 1932 analysis of the American corporation *The Modern Corporation and Private Property* social scientists have been intrigued and challenged by the evolution of this crucial part of American social and economic life Here William Roy conducts a historical inquiry into the rise of the large publicly traded American corporation Departing from the received wisdom which sees the big vertically integrated corporation as the result of technological development and market growth that required greater efficiency in larger scale firms Roy focuses on political social and institutional processes governed by the dynamics of power The author shows how the corporation started as a quasi public device used by governments to create and administer public services like turnpikes and canals and then how it germinated within a system of stock markets brokerage houses and investment banks into a mechanism for the organization of railroads Finally and most particularly he analyzes its flowering into the realm of manufacturing when at the turn of this century many of the same giants that still dominate the American economic landscape were created Thus the corporation altered manufacturing entities so that they were each owned by many people instead of by single individuals as had previously been the case
