Societal Adaptation To Climate Variability And Change:

Societal Adaptation to Climate Variability and Change Sally M. Kane, Gary W. Yohe, 2000-05-31 Changes in climate and climate variability have an effect on people's behaviour around the world and public institutions have an important part to play in influencing our ability to respond to and plan for climate risk. We may be able to reduce climate risk by seeking to mitigate the threat on the one hand and by adapting to a changed climate on the other. Another theme of the book is the integrated role of adaptation and mitigation in framing issues and performing analyses. Adaptation costs fall most heavily on the poor and special attention needs to be paid to adaptation by the poorest populations. An integrating framework is also presented to provide the context for an expansive typology of terms to apply to adaptation. The 12 papers collected here use methods from a variety of disciplines and focus on different time frames for decision making from short term to the very long term. Readership: Technically trained readers familiar with the policy issues surrounding climate change and interested in learning the scientific underpinnings of issues related to societal adaptation.

A Framework for Social Adaptation to Climate Change, 2010 **The SAGE**

Handbook of Environmental Change John A. Matthews, 2012-01-31 The SAGE Handbook of Environmental Change is an extensive survey of the interdisciplinary science of environmental change including recent debates on climate change and the full range of other natural and anthropogenic changes affecting the Earth-ocean-atmosphere system in the past, present and future. It examines the historic importance, present status and future prospects of the field over two volumes. With more than 40 chapters, the books situate the defining characteristics and key paradigms within a state-of-the-art review of the field including its changing nature and diversity of approaches, evidence base, key theoretical arguments, resonances with other disciplines and relationships between theory, research and practice. Opening with a detailed contextualizing essay by the editors, the work is arranged into six parts: Part One: Approaches to Understanding Environmental Change; Part Two: Evidence of Environmental Change and the Geo-ecological Response; Part Three: Causes, Mechanisms and Dynamics of Environmental

Change Part Four Key Issues of Human induced Environmental Changes and Their Impacts Part Five Patterns Processes and Impacts of Environmental Change at the Regional Scale Part Six Responses of People to Environmental Change and Implications for Society Global in its coverage scientific and theoretical in its approach the books bring together an international set of respected editors and contributors to provide an exciting timely addition to the literature on climate change With the subjects interdisciplinary framework this book will appeal to academics researchers postgraduates and practitioners in a variety of disciplines including geography geology ecology environmental science archaeology anthropology politics and sociology

Climate Variability and Change and Sea-level Rise in the Pacific Islands Region John E. Hay,2003 [Social Dimensions of Climate Change](#) Robin Mearns,Andrew Norton,2009-12-02 While major strides have been made in the scientific understanding of climate change much less understood is how these dynamics in the physical environment interact with socioeconomic systems This book brings together the latest knowledge on the consequences of climate change for society and how best to address them

[Building Resilience for Adaptation to Climate Change in the Agriculture Sector](#) Alexandre Meybeck,2012 The joint workshop on Building resilience for adaptation to climate change in the agriculture sector was organized by FAO and OECD and was held from 23 to 24 April 2012 at FAO headquarters in Rome
