*Handbook of Research on Educational Communications and Technology* David H. Jonassen,2004 This edition of this handbook updates and expands its review of the research theory issues and methodology that constitute the field of educational communications and technology Organized into seven sectors it profiles and integrates the following elements of this rapidly changing field The New Public Governance Stephen P. Osborne,2010-01-21 Despite predictions that new public management would establish itself as the new paradigm of Public Administration and Management recent academic research has highlighted concerns about the intra organizational focus and limitations of this approach This book represents a comprehensive analysis of the state of the art of public management examining and framing the debate in this important area The New Public Governance sets out to explore this emergent field of research and to present a framework with which to understand it Divided into five parts the book examines Theoretical underpinnings of the concept of governance especially competing perspectives from Europe and the US Governance of inter organizational partnerships and contractual relationships Governance of policy networks Lessons learned and future directions Under the steely editorship of Stephen Osborne and with contributions from leading academics including Owen Hughes John M Bryson Don Kettl Guy Peters and Carsten Greve this book will be of particular interest to researchers and students of public administration public management public policy and public services management

A Civil Society with no Hierarchy Ilie Badescu,Joseph Livni,2023-04-24 Ilie Badescu and Joseph Livni follow the footsteps of two giants who pioneered the field H H Stahl of Romania who studied the sociology of communal societies and D J Elazar of the United States who studied the political science of covenantal societies This collection sheds light on obscure corners of the field gathering up thoughts and concepts of many other sources of past and contemporary research in the field In this volume the reader will find answers to difficult questions like How did acephalous societies penetrate civilization How did they manage to preserve their egalitarian ethos Why did powerful hierarchies work in partnership with them And most importantly how did covenantal societies work around the constraints of a civilized reality The history of civilization consists of various degrees of stratified configurations ranging from oligarchic city states to powerful pyramidal empires

**System Innovation for Sustainability 2** Theo Geerken,Mads Borup,2017-09-08 The EU funded project Sustainable Consumption Research Exchanges SCORE consists of around 200 experts in the field of sustainable innovation and sustainable consumption The SCORE philosophy is that innovation in SCP sustainable consumption and production policy can be achieved only if experts that understand business development sustainable solution design consumer behaviour and system innovation policy work together in shaping it Sustainable technology design can be effective only if business can make the products profitably and consumers are attracted to them To understand how this might effectively happen the expertise of systems thinkers must be added to the mix The publication in 2008 of System Innovation for Sustainability 1 was the first result of a unique positive confrontation between experts from all

four communities It examined what SCP is and what it could be provided a state of the art review on the governance of change in SCP policy and looked at the strengths and weaknesses of current approaches System Innovation for Sustainability 2 is the first of three books of case studies covering respectively the three key consumption areas of mobility food and agriculture and energy use and housing These three areas are responsible for 70% of the life cycle environmental impacts of Western societies These case studies aim to stimulate foster or force change to SCP theory in practice System Innovation for Sustainability 2 focuses on change towards sustainable personal mobility based on implemented cases analysed from a system perspective It examines what changes can be made to help us reduce our need for mobility or start to make use of more sustainable mobility systems This is clearly a critical and highly problematic area as increasing living standards of a growing global population have resulted in rapid rises in both car and air travel along with the associated pollution Uniquely this book approaches the problems and solutions from a systems perspective explaining the meta trends specific issues for the mobility sector socioeconomic trends political considerations socio cultural developments and environmental issues As well as the mobility system itself other societal systems that impact the need for mobility such as labour and taxation are addressed in order to provide sustainable solutions to our current lock in problems Three major problem areas are considered the three Cs carbon emissions and the growing contribution of mobility to the climate change crisis congestion and casualties And each strategy proposed addresses one or more of these problem areas Among the cases discussed are Norway s carbon compensation scheme for air travel Madrid s high occupancy vehicle lanes London s congestion charge scheme market based instruments such as eco labelling for cars and taxation The book identifies opportunities for actors such as governments manufacturers and consumers to intervene in the complex system to promote sustainable mobility It concludes with a reflection on problems trends and action needed The System Innovation for Sustainability series is the fruit of the first major international research network on SCP and will set the standard in this field for some years to come It will be required reading for all involved in the policy debate on sustainable production and consumption from government business academia and NGOs for designers scientists businesses and system innovators

*The Risk Society Revisited*  
Eugene Rosa,Ortwin Renn,Aaron McCright,2014 Risk is a part of life How we handle uncertainty and deal with potential threats influence decision making throughout our lives In The Risk Society Revisited Eugene A Rosa Ortwin Renn and Aaron M McCright offer the first book to present an integrated theory of risk and governance The authors examine our sociological understanding of risk and how we reconcile modern human conditions with our handling of risk in our quest for improved quality of life They build a new framework for understanding risk one that provides an innovative connection between social theory and the governance of technological and environmental risks and the sociopolitical challenges they pose for a sustainable future Showing how our consciousness affects risk in the decisions we make as individuals and as members of a democratic society The Risk Society Revisited makes an important contribution to the literature of risk research

**Creating a Sustainable Economy** Gerardo Marletto,2013-06-19 This book is designed for those scholars students policy makers or just curious readers who are looking for heterodox thinking on the issue of environmental economics and policy Contributions to this book draw on multiple streams of institutional and evolutionary economics and help build an approach to environmental policy that radically diverges from mainstream prescriptions No silver bullet solutions emerge from the analyses Even market based tools such as green taxes or tradable pollution permits are bound to fail if they are not incorporated into an integrated multi dimensional and multi actor policy for structural change **WASH**,1973 The
