Franks, 2002 In this new book Lyng and Franks argue that contemporary sociology has lost its connection to human realities Addressing the conceptual underpinnings of sociological practice they offer ways for sociology to reclaim lost concepts of objectivity reality and truth The authors deconstruct these terms in modern and postmodern contexts yet they look beyond the usual predicaments espoused by these traditions in an effort to rebuild concepts of reality and truth more coherently for contemporary social relations and social problems

*Social Theory in the Real World* Steven Miles, 2001-05-09 Social Theory in the Real World is concerned with illustrating the practical benefits of social theory Many students find it hard to relate the real insights provided by social theory to their real life experiences and many lecturers struggle to demonstrate the relevance of social theory to everyday life This book offers an accessible non patronizing solution to the problem demonstrating that social theory need not be remote and obscure but if used in imaginative ways it can be indispensable in challenging our common sense perceptions and understandings The book identifies the key themes of contemporary social theory mass society postindustrialism consumerism postmodernism McDonaldization risk and globalization and uses the insights of both classical and contemporary theorists of social change to highlight the potential of imaginative theorizing
