**The Struggle Against Enforced**

**Disappearance and the 2007 United Nations Convention** Tullio Scovazzi, Gabriella Citroni, 2007 Enforced disappearance is one of the most serious human rights violations It constitutes an autonomous offence and a crime under international law on account of its multiple and continuing character It is not a phenomenon of the past nor is it geographically limited to Latin America such scourge is widespread today and on the increase in other continents For more than twenty five years relatives of disappeared people worldwide have insisted on the pressing need for an international legally binding instrument against enforced disappearances 2006 is the year of the adoption of the International Convention on the Protection of All Persons from Enforced Disappearances which represents the result of several legislative and jurisprudential developments that are duly analyzed in this book The Convention has been opened for signature in February 2007

**Prosecution of Politicide in**

**Ethiopia** Marshet Tadesse Tessema, 2018-09-26 This book investigates the road map or the transitional justice mechanisms that the Ethiopian government chose to confront the gross human rights violations perpetrated under the 17 years rule of the Derg the dictatorial regime that controlled state power from 1974 to 1991 Furthermore the author extensively examines the prosecution of politicide or genocide against political groups in Ethiopia Dealing with the violent conflict massacres repressions and other mass atrocities of the past is necessary not for its own sake but to clear the way for a new beginning In other words ignoring gross human rights violations and attempting to close the chapter on an oppressive dictatorial past by choosing to let bygones be bygones is no longer a viable option when starting on the road to a democratic future For unaddressed atrocities and a sense of injustice would not only continue to haunt a nation but could also ignite similar conflicts in the future So the question is what choices are available to the newly installed government when confronting the evils of the past There are a wide array of transitional mechanisms to choose from but there is no one size fits all mechanism Of all the transitional justice mechanisms namely truth commissions lustration amnesty prosecution and reparation the Ethiopian

government chose prosecution as the main means for dealing with the horrendous crimes committed by the Derg regime. One of the formidable challenges for transitioning states in dealing with the crimes of former regimes is an inadequate legal framework by which to criminalize and punish egregious human rights violations. With the aim of examining whether or not Ethiopia has confronted this challenge, the book assesses Ethiopia's legal framework regarding both crimes under international law and individual criminal responsibility. This book will be of great relevance to academics and practitioners in the areas of genocide studies, international criminal law and transitional justice. Students in the fields of international criminal law, transitional justice and human rights will also find relevant information on the national prosecution of politicide in particular and the question of confronting the past in general. Marshet Tadesse Tessema is Assistant Professor of the Law School College of Law and Governance at Jimma University in Ethiopia and Postdoctoral Fellow of the South African German Centre University of the Western Cape in South Africa.

*Human Rights Functions of United Nations Peacekeeping Operations* Mari Katayanagi, 2002-09-25

The United Nations peacekeeping has evolved as a practical measure for preserving international peace and security. Recent peacekeeping has two important features: the use of force which arguably exceeds self defence on the one hand and multifunctional operations on the other. The Security Council has started considering a wide range of factors including serious human rights violations as threats to international peace and security. Recognising the UN's principle to seek peaceful settlement which underlies the legality of peacekeeping, this research focuses on the human rights functions of multifunctional peacekeeping operations. Such functions have immense potential for enhancing conflict resolution through peaceful means. In order to illustrate these issues and the diverse practice of UN peacekeeping, the author of this book has dealt with four detailed case studies on El Salvador, Cambodia, Rwanda and the former Yugoslavia. The achievements, problems and defects experienced by different operations are analysed using the insights of the author's own experience in a peacekeeping operation.
