The Army NCO's Guide to Mentoring Raymond Andrew Kimball,2019-09 The Non Commissioned Officer NCO is a crucial part of the U S Army s effectiveness and capabilities While

the Army has had remarkable success in improving NCO professional education. Develops Others doggedly remains the leadership competency rated as least effective for NCOs. Professional mentoring can address that gap but only if NCOs understand how mentoring works in practice. The Army NCO's Guide to Mentoring contains real mentoring stories from real NCOs describing the nuances, strengths and weaknesses of their actions. It is the only work of its kind to use real stories collected by a West Point researcher to lay out the power of NCO mentoring practice. The book starts with a quick summary of cutting edge research in the field to acquaint the reader with the latest mentoring trends. It then deftly describes the benefits of NCO mentoring along with mentoring practices and contexts. It concludes with a comparison of officer and NCO mentoring highlighting the similarities and differences between the two. The Army NCO's Guide to Mentoring is a must read for anyone interested in Army leader professional development. It is the second volume of the Guides to Army Mentoring series after The Army Officer's Guide to Mentoring.

Hell in Hürtgen Forest Robert S. Rush, 2001. Some of the most brutally intense infantry combat in World War II occurred within Germany's Hurtgen Forest. Focusing on the bitterly fought battle between the American 22d Infantry Regiment and elements of the German LXXIV Korps around Grosshau, Rush chronicles small unit combat at its most extreme and shows why despite enormous losses the Americans persevered in the Hurtgenwald meat grinder. On 16 November 1944 the 22d Infantry entered the Hurtgen Forest as part of the U.S. Army's drive to cross the Roer River. During the next eighteen days the 22d suffered more than 2,800 casualties or about 86 percent of its normal strength of about 3,250 officers and men. After three days of fighting the regiment had lost all three battalion commanders. After seven days rifle company strengths stood at 50 percent and by battle's end each had suffered nearly 140 percent casualties. Despite these horrendous losses the 22d Regiment survived and fought on due in part to army personnel policies that ensured that unit strengths remained high even during extreme combat. Previously wounded soldiers returned to their units and new replacements green to battle arrived to follow the remaining battle-hardened cadre. The German units in the Hurtgenwald suffered the same horrendous attrition with one telling difference: German replacement policy detracted from rather than enhanced German combat effectiveness. Organizations had high paper strength but low manpower and commanders consolidated decimated units time after time until these ever-dwindling bands of soldiers disappeared forever: killed, wounded, captured or surrendered. The performance of American and German forces during this harrowing eighteen days of combat was largely a product of their respective backgrounds, training and organization. Rush's work underscores both the horrors of combat and the resiliency of American organizations. While honoring
