

The Necronomicon Files

Lin Carter, H. P. Lovecraft

The Necronomicon Files:

The Necronomicon Files Daniel Harms, John Wisdom Gonce, 2003-07-01 Occult scholars explore how H P Lovecraft's fictional book of magic became a cultural phenomenon and real life legend in this revised and expanded volume. What if a book existed that revealed the answers to all of life's mysteries? For those who believe in it, *The Necronomicon* is exactly that: an eighth century occult text of immense power. In fact, *The Necronomicon* is a creation of science fiction writer H P Lovecraft who referred to the work in a number of stories and gave weight to its legend by inventing its own elaborate history. In *The Necronomicon Files*, two occult authorities explore all aspects of *The Necronomicon* from its first appearance in Lovecraft's fiction to its ongoing pervasive appearance in cult and occult circles. The authors show how Lovecraft's literary circle added to the book's legend by referring to it in their own writing. As people became convinced of the book's existence, references to it in literature and film continue to grow. This revised and expanded edition also examines the lengths people have undergone to find the *Necronomicon* and the cottage industry that has arisen in response to the continuing demand for a book that does not exist. *The Necronomicon Files* illuminates the transformations of a modern myth, exposing a literary hoax while celebrating the romance of *Necronomicon* lore.

The Necronomicon Files Daniel Harms, John Wisdom Gonce, III, 1998-07-01. *Necronomicon*: a mere glance at its pages sends its readers shrieking into the night, their soul seared for all eternity. At least that's what people want you to believe. Thank goodness authors Daniel Harms and John Wisdom Gonce III set the record straight in this scholarly yet accessible history of the dreaded tome. *The Necronomicon Files* is an incredibly comprehensive guide to the *Necronomicon* that covers all aspects: legends and factual history surrounding this nefarious book. From a complete history of the book as it evolved in the Cthulhu mythos started by Lovecraft and continued by others to contemporary editions now available to the public. From appearances and references in movies and other media to the actual magical concepts behind the fictional and published *Necronomicon* variants. Much more than just a dry factual account, Harms's and Gonce's deep knowledge in their respective fields of interest bring the history and continuing influence of the *Necronomicon* alive with wit and verve. Humorous and intriguing, this compassionate examination of the *Necronomicon* is a thorough repudiation of the myths surrounding it yet preserves much of the romance and fascination associated with the legend.

Book jacket **Terrifying Texts** Cynthia J. Miller, A. Bowdoin Van Riper, 2018-09-14. From *Faust* 1926 to *The Babadook* 2014, books have been featured in horror films as warnings, gateways, prisons, and manifestations of the monstrous. Ancient grimoires such as the *Necronomicon* serve as timeless vessels of knowledge beyond human comprehension while runic summoning diaries and spell books offer their readers access to the powers of the supernatural but at what cost? This collection of new essays examines nearly a century of genre horror in which on-screen texts drive and shape their narratives sometimes unnoticed. The contributors explore American films like *The Evil Dead* 1981, *The Prophecy* 1995, and *It Follows* 2014 as well as such international films as Eric Valette's *Malefique* 2002, Paco Cabeza's *The Appeared* 2007, and Lucio Fulci's
