## **Magic Tree House Book Report:**

*The Routledge Handbook of Translation and Young Audiences* Michał Borodo, Jorge Díaz-Cintas, 2025-01-31 The Routledge Handbook of Translation and Young Audiences offers a comprehensive overview of translation in the context of young audiences. The handbook synthesises research on translation of children's and young adult literature, audiovisual translation, the translation of comics and picture books, empirical research methods, and translation performed by fan communities in the digital world. Adopting a forward-looking approach, it is organised around these five key themes which taken together propose a new way of looking at interrelated phenomena which have never been brought together before to map this emerging area of study. Featuring 35 contributions from leading and emerging scholars, the volume showcases a range of perspectives which focus on translation and cultural practices around children and young adults not only as readers, viewers, and consumers but also as prosumers and collaborative creators of content. Providing a multi-layered perspective on the study of translation and young audiences, this handbook will be a valuable resource for students and scholars in translation studies, particularly those interested in audiovisual translation, media translation, multimodal texts, and children's literature.
